Register of corrections.

PREFACE.

1. This volume is intended for the use of all officers. The book was completely revised in 1923 and rearranged in chapters, which necessitated a renumbering of paragraphs; a table is included after the index to show the numbers of the paragraphs in the old editions and the corresponding paragraphs in the present edition. All corrections received up to the 1st February 1927 have been included. Regulations which only concern one service or department are not included in this book; such instructions on departmental subjects as regimental officers must know are however, included herein, in order to obviate the necessity of issuing departmental volumes to fighting units.

2 Command, district and brigade commanders and other officers commanding are responsible that the regulations and orders are strictly observed and that any local instructions or regimental orders that may be issued are guided and directed by their spirit and intention.

3 *Officers are expected to interpret these regulations reasonably and intelligently, with due regard to the interests of the service, bearing in mind that no attempt has been made to provide for necessary and self-evident exceptions, nor for such matters of detail as should be provided for by the local authorities.*

4. The other volumes of India Army Regulations with which British and Indian units are concerned are laid down in Appendix XLII.

Departmental volumes will be issued to all Staffs, but not to fighting units; see paragraph 800-A

5. The rules in the King's Regulations are, when not at variance with these regulations, alike applicable to all ranks of the British and Indian army in India; such rules are not therefore reproduced in these regulations.

7. The Army Department.—The following is the organization of the Army Department of the G. of I:—

8 Army headquarters.—Army Headquarters consists of the branches administered by the four Principal Staff Officers, who

are the Chief of the General Staff, the Adjutant General, the Quartermaster General, and the Master General of Supply, and by the Military Secretary. The duties of each branch are shewn in detail in Appendix XXIX. CHAPTER II.—DUTIES OF COMMANDERS, INSPECTIONS, AND CONFIDENTIAL REPORTS.

1. DUTIES OF COMMANDERS.

11 General officer Commanding-in-Chief—A.G.O.C.-in-C. is responsible for the command administration, training, and efficiency of the troops located in his command, and also for internal security within the area of his command.

He will cause the schemes for the security of defended ports and internal areas in his command to be revised biennially. Copies of the revised schemes will be submitted to army headquarters on the 1st June in the case of port defence schemes and the 15th September in the case of area security schemes in the years in which the revisions are due.

12 District commander—The duties of a district commander will be similar to those prescribed in the para above, except that the revised schemes for the security of defended ports and internal areas in his district will be submitted to the G.O.C.-in-C. on such dates as may be fixed by the latter.

He is responsible for the condition of the defence works in his district; that deficiencies in mobilization equipment held by units under his command are brought to notice and that the mobilization orders are kept up to date.

13 Brigade area and brigade commanders—A colonel, graded as a colonel commandant, is appointed to command every cavalry and infantry brigade, as Brigade area. He is responsible for the command, administration and training of all units located in his area irrespective of the war formation to which those units may be allotted. In cases where the officer commanding a brigade has portions of his war formation located in an area other than his own, he is in addition responsible for visiting such units periodically to acquaint himself with their progress and state of efficiency and to arrange and discuss with the area commander the method and detail of training. He will accordingly deal direct with units located within his area on all matters connected with the above subjects and will only deal with the station commander on matters connected with internal security and on questions of purely local importance to the station concerned.

14 Station commander.—A station where a station commander is authorized practically constitutes a sub-brigade area, and the commander holds a position analogous to that of an officer commanding a detachment and is responsible for the command, administration and training of the troops comprising that detachment.

In a station at which a district or brigade headquarters is located, (G. S. except in those stations for which a special commander has been sanctioned by the Government of India, the district or brigade commander himself will be responsible for the command of the station, 15401.)

the station staff officer of which will be attached to his staff. Where both a district and a brigade commander are located in the same station the G. O. C.-in-C. Command will decide which is to command the station. In a station with more than one brigade commander, the senior will normally command. A district or brigade commander in command of a station will not delegate the command of such a station to any other officer.

In a station where a station commander is not authorized or where the senior combatant officer assumes the duties of officer commanding the station, he shall not be charged with the training or administration of the units located in the station other than those of his own unit. His duties with regard to the station comprise:—

The command and maintenance of discipline and order among all troops within the station, the taking of necessary measures for the maintenance of health and security of the station and for issuing such orders as he considers necessary for this purpose; co-ordination of such staff work as may arise between units and detachments within the station. He is not, however, concerned with the distribution, collection or co-ordination of correspondence addressed to units, but will confine himself to co-ordinating matters which are of purely local concern or on which his opinion as station commander is required.

In the event of a disturbance he will automatically take command of all troops in the station, and in consultation with the local civil authorities will take whatever action he considers necessary to deal with the situation.

15. Unit commander—A unit commander is responsible for the training, administration, health, maintenance of discipline, efficiency, and the state of the accounts in the unit under his command (see para 547); he will supervise and control all duties performed by those under his command. He is responsible for the security of buildings, armaments, equipment or other stores in their charge, and that they are complete, serviceable, and in accordance with the latest pattern and scale from which no deviation is allowed without the sanction of the G. O. I. He will bring to the notice of his superior commander all defects, losses, and damage which he is unable to rectify. It is the duty of every unit commander to see that no officer, soldier, follower or civilian employee who is unfit to perform his duties is retained in the service. He is responsible that all orders published by superior authority are communicated to those under his command whom they may concern. He is responsible that the rules for the handling of explosives contained in Appendix XXIII are strictly adhered to.

16. Second in command—The second in command in cavalry regiments and infantry and pioneer battalions is the assistant to the unit commander and also commands the headquarter unit except in the case of infantry and pioneer training battalions.

17 Squadron and company commander—A squadron and company commander is responsible for the training, discipline, administration and pay of his command.

18 Adjutant.—The adjutant is a regimental staff officer. His duties include the training of recruits in cavalry regiments, sapper and miner corps, the signal training depot, and infantry and pioneer battalions other than training battalions, and active battalions of regiments containing training battalions.

19. Quartermaster—The quartermaster is a regimental staff officer. He is charged with the receipt and issue of equipment, clothing and stores, the provision of transport and rations, the conservancy and cleanliness of the lines and bazaar and with the supervision of the regimental shops and establishments.

20 The senior Indian officer—The risaldar-major or subadar major occupies the position of confidential Indian officer to the unit commander and is responsible for keeping him acquainted with every occurrence, circumstance, or condition among the Indian ranks which may be prejudicial to the general good feeling or interests of the unit. The excuse that matters had not come to his knowledge can never be accepted. He will be selected for his uprightness of character and personal influence.

21 Troop and platoon commander.—A risaldar, subadar or jemadar is the troop or platoon commander in the Indian army. He is responsible to his squadron or company commander for the training, discipline, and administration of his command, and will keep him acquainted with all occurrences that affect it. The senior Indian officer present with a squadron or a company is responsible that no unauthorized persons remain in the lines of the unit.

22 Indian adjutant and quartermaster—The officer commanding a cavalry or infantry unit will appoint a jemadar as woordie-S. M. T. major or jemadar adjutant. Candidates for these appointments must have qualified in the rifle and light automatic at a small arms school (and as a general rule a candidate for the appointment of woordie-major should have qualified at the Indian Cavalry School). He is responsible for the duty roster and for the list of strangers temporarily residing in the lines. He will assist the adjutant and will inform him of every circumstance affecting the discipline of the unit.

Officers commanding cavalry and infantry units will appoint a jemadar as jemadar quartermaster whose duty it will be to inspect and distribute rations. He will in addition assist the quartermaster in the performance of his duties.

The woordie-major or jemadar adjutant and the jemadar quartermaster are the Indian staff officers of an Indian unit. They vacate their appointments on promotion to risaldar or subadar, or, except in the case of the jemadar quartermaster, on completion of 4 years' tenure in the appointment. The commanding officer should ensure that the jemadar quartermaster is fit to command a troop or platoon

on relinquishing the appointment of jemadar quartermaster. These officers can be removed from their appointments by order of the brigade commander.

2. INSPECTION.

23 General Instructions—Every unit and depot in India will be inspected annually by the district or brigade commander. The general principles laid down in the King's Regulations for the inspection of British units are applicable to all units in India. In carrying out inspections a clear distinction will be made between inspections to ascertain the state of efficiency as regards training and those for the purpose of testing administrative efficiency including interior economy. A district commander may take two, and a brigade commander one staff officer on a tour of inspection.

24 Administrative inspections—As regards administrative inspections, command and district commanders will use their discretion in making use of the heads of the administrative services under their command to relieve themselves from entering into administrative details in their inspections.

25 Notice of inspections.—Inspecting officers will give due notice of intended inspections to the officer commanding the station concerned. The latter having notified the date of inspection in orders, will be responsible that the staff, departmental, and unit commanders concerned are present to afford such information and assistance as may be required.

26. Inspection by officers of army headquarters.—Under the orders of H. E. the C.-in-C, staff officers, technical advisers and heads of administrative services and departments at army headquarters will carry out such inspections as may be necessary. These inspections will be conducted from a technical or departmental point of view and will be directed towards the maintenance of a uniform system of training, instruction, or administration, throughout the arm of the service or the department inspected. They will not touch upon matters which lie within the province of the local commanders. Before bringing to notice any defect in clothing, equipment or any matter which may be dealt with by the local commander, the inspecting officer should ascertain his views and what action he intends to take in the matter.

Should the man's absence not be satisfactorily explained he will be struck off the effective strength of the reserve. He will not, however, be discharged from the service and may, if subsequently apprehended, be tried by court martial or by the civil power for an offence under Section 6 of the Indian Reserve Forces Act, 1888, and Rule 3 of the Indian Reserve Force Rules, 1912 (see Appendix XXVIII). Should his absence be due to any cause, which renders his retention in the reserve undesirable the officer commanding reservists will take the necessary steps for his immediate discharge under item (xviii) of the table annexed to Indian Army Act Rule 13. Should his absence be due to sickness, the officer commanding reservists will arrange for his being medically examined (at the reserve centre nearest his home) in accordance with Rule 10 of the Indian Reserve Forces Rules. 6. DISCHARGE AND TRANSFER TO THE ARMY RESERVE.

(a) British Army.

183. Except as provided for below all soldiers will be sent home for discharge or transfer to the reserve as prescribed in para. 335, King's Regulations, and subject to such supplementary instructions as may be issued in India from time to time.

(a) *Soldiers who may be discharged in India.*—The only soldiers who may be discharged in India are (i) those enlisted in India, (ii) those discharged by purchase who elect to remain overseas, (iii) those sentenced by the civil power to imprisonment or penal servitude, (iv) those who, on completion of their engagement or within six months thereof or on release from the service on compassionate grounds, elect to reside in India or in another Command abroad, (v) those who on the completion of their engagement or on release from the service on compassionate grounds, wish to proceed to a British Dominion, Colony, Possession, or to a foreign country.

(b) *Soldiers who may be transferred to the Army Reserve in India.*—The only soldiers who may be transferred to the Army Reserve in India are (i) those enlisted in India, (ii) those who, on expiration of their colour service or within six months thereof or on premature transfer to the reserve on compassionate grounds, may elect to reside in India or in another Command abroad, (iii) those who on the expiration of their colour service, or on premature transfer to the reserve on compassionate grounds, wish to proceed to a British Dominion, Colony, Possession, or to a foreign country.

(c) *Conditions of discharge or transfer to the Army Reserve in India.*—Discharges and transfers to the reserve for the purpose of residing in India will only be authorised when adequate proof is furnished (a) that the soldier has obtained a guarantee of employment that is likely to be permanent, and (b) that he is able to maintain himself (and his dependants, if any) in European style.

All transfers to the Army Reserve in India are subject to the conditions of para. 441, King's Regulations. Applications for transfer to the Army Reserve under the provisions of (b) (ii) or (iii) above, will be referred to Army Headquarters to enable the permission of H. E. the Commander-in-Chief to be obtained as required by para. 442, King's Regulations. This procedure will also be followed in the case of a soldier discharged under para. 363 (ix) (b), King's Regulations who wishes to reside in another Command abroad.

Discharges and transfers to the Reserve for the purpose of proceeding to a British Dominion, Colony, Possession, or foreign country are subject to compliance with the relevant immigration regulations. Full information regarding immigration regulations can be obtained on application to the Local Government or Passport Issuing Officer of the civil district in which the soldier is serving at the time of his discharge or transfer to the Reserve.

NOTE.—Before applications for discharge or transfer to the Army Reserve in India are submitted for the sanction of the competent authority, the local Branch of the Ex-Servicemen Association will be consulted as to whether the employment offered is recommended or not.

(d) *Discharge by purchase.*—A soldier permitted to purchase his discharge under King's Regulations, and requiring repatriation, will be required to deposit an amount sufficient to cover the cost, at commercial rates, of a passage by private steamer to the United Kingdom. This rate will be ascertained from the embarkation authorities.

Sufficient money to defray the cost of conveyance from the soldier's permanent station to the port of embarkation and from the port of disembarkation to the place of discharge will be lodged in addition to passage money.

During a troopship season payment passages in a Government vessel or hired transport may become available, but no promise of such passages can be given nor can they be claimed as a right. In the event of such passages becoming available, they can only be allotted at short notice after all entitled passengers have been provided for.

The rates charged for payment passages in a Government vessel or hired transport will be notified in Army Instructions (India) from time to time.

When passage in a Government vessel or hired transport is provided, the difference between the cost of such passage and the cost of a private steamer passage will be remitted to the Home Paymaster for credit to the soldier's account or, where the passage money has been deposited by the soldier's relatives, for immediate return to them.

No refund is admissible in respect of duty performed during the homeward voyage.

The procedure indicated above is applicable, *mutatis mutandis*, to soldiers proceeding to a British Dominion, Colony, Possession, or to a foreign country on discharge by purchase. A-39308
(A. G.-6).

since in India A. F. B-264 is issued direct to units, application for this form need not be made to the Headquarters of the Command.

(b) Indian army.

187. Discharging authorities.—The rules for the discharge of persons subject to the I. A. A. are contained in the I. A. A. rules, and the authorities who are competent to authorize the various classes of discharge are therein defined. The summary dismissal of such persons can only be authorized in accordance with sections 13 and 14 of the I. A. A. Dismissal can also be awarded as a court-martial punishment.

188. Application for summary dismissal or discharge.—Applications for the summary dismissal or discharge, of a person subject to the I. A. A. will be made on I. A. F. Y-1048 on which the authority authorising dismissal or discharge will endorse the necessary order to which the unit commander of the person concerned will give effect. See rule 12 of the I. A. A. Rules.

189. Discharge of unsuitable recruits.—A unit commander is empowered, under item (xx) of the table annexed to rule 13 of the I. A. A. rules, to discharge unattested recruits.

190. Discharge of unfit recruits.—A recruit enrolled by a R. O who on arrival at headquarters is, in the opinion of the medical officer of the unit, medically unfit, will be examined by a board of two medical officers and, if declared unfit, his discharge will be authorised by the officers commanding under item (xx) of the table annexed to rule 13 of the I. A. A. Rules.

"The instruction in para. 394, King's Regulations, apply in the case of Indian Troops." (A. G. 6).

192. Assessment of character.—In estimating a soldier's military character whilst serving with the colours, an assessment of his military qualifications and conduct will be made by his unit commander and entered in the following terms—

- | | |
|-----------------|------------------|
| (i) Exemplary. | (v) Indifferent. |
| (ii) Very good. | (vi) Bad. |
| (iii) Good | (vii) Very bad. |
| (iv) Fair | |

An exemplary character is the highest that can be given to any soldier and is to be awarded only to a soldier whose period of service has enabled his conduct to be thoroughly tested. The unit commander is the sole judge as to whether a soldier is to be granted an exemplary character, the grant being discretionary and not obligatory.

A soldier will not be eligible for an exemplary character if during his service he has—

- been sentenced by a civil court to imprisonment and has undergone such sentence;
- been sentenced by a court-martial to imprisonment, or has had his trial for desertion or fraudulent enlistment dispensed with;
- been convicted of drunkenness during the last five years of his service;
- been reduced to a lower grade or to the ranks for an offence under the I. A. A. other than inefficiency.

A "bad" character is not to be awarded to a n. c. o. or to a soldier in possession of a good conduct badge.

193. Free passage on discharge.—Instructions as to the conveyance to his home of a soldier on discharge will be found in A. R., I., Vol. X.

194. Indian insanes.—If a person subject to the I. A. A. is suspected of insanity the unit commander will report the case to the brigade commander who will direct the examination of the individual by a board composed, if practicable, of two medical officers, otherwise by the man's company commander (O. C. in the case of a departmental follower) and the officer in medical charge. If pronounced insane the person concerned will be discharged by the authority prescribed in the I. A. A. and handed over, with his discharge documents, to the civil power, or, if harmless, to his friends, or relations.

(c) Civilian employees.

195. Suspension or dismissal.—The rules relating to the suspension, reduction, removal and dismissal of civilian public servants are contained in Appendix XI.

The rules relating to the discharge, if found unfit for field service, of A.-19276 civilian establishments engaged on I. A. F. Z.-2055 and employed in (A. G. 6).

the various administrative services and departments of the Indian Army, are contained in Appendix XI (a).

196. Insolvency and forfeiture of appointment.—A civilian employee who resorts to the insolvency court renders himself liable to a summary dismissal. If half his salary is constantly attached for debt, or if he owes a sum which he cannot hope to repay within two years, it is generally undesirable that he should remain in government service. In this case a full schedule of his debts will be called for by his superior officer who, having regard to the circumstances in which the debts were incurred will decide whether the debtor should be allowed to retain his appointment.

197. Superannuation of an uncovenanted servant.—When an uncovenanted civil servant is within three months of 55 years of age, his immediate superior will forward proposals for his retention or otherwise to the superior authority concerned. A similar course will be followed in the case of a man who has been granted an extension of service.

7. PENSIONS.

198. Civil employment of military pensioners.—The regulations for the employment of pensioned or discharged Indian soldiers and reservists in civil capacities, are contained in Appendix XVII.

199. Family pensions.—The rules governing the grant of family pensions and children's allowances are contained in P. & A. Regs. On the death of a person subject to the I. A. A. under circumstances that entitle the heir to family pension, the unit commander or the local head of the department may authorise a field officer if available, otherwise a Captain of the Indian Army, proceeding on tour or on leave, to investigate a claim to family pension. Failing this the unit commander or head of the department will fill in Part I of I. A. F. A.-366 in duplicate and send both copies accompanied with a true copy of the kindred roll of the deceased, the death certificate on I. A. F. A.-393, and any other document substantiating the claim, to the station commander nearest the home of the nominated heir (if the latter is within the prescribed degree of relationship otherwise to the station commander nearest the home of the senior representative in the prescribed order of succession). The station commander will select a field officer if available, otherwise a captain of the Indian Army, to examine the title of the representative, and will inform the latter as to whom, and when, he should report himself with his identifying witnesses. If ^{Khatmandu} ^{Gorakhpur} is the station, the O. C. will direct the representative to appear before and send the documents to, the ^{British Envoy at the court of Nema} ^{R. O. Gorakhpur} for examination of title. The investigating officer will complete Part II of I. A. F. A.-366 and will send both copies through the station commander to the C. M. A. of the district in which the claim originated (except in the case of Burma when the claims will be sent to the C. M. A. of the district in which the heir is living).

A-2937911
(A. G. 14).

The investigation of claims to family pensions may be carried out by civil officers in the following cases:—

- (a) where inconvenience or hardship would be entailed by claimants having to proceed to the nearest military station
- (b) when the application is on behalf of a "Purdanashin."

The title of a widow to a monetary allowance in respect of the Victoria Cross, the Military Cross, and the Indian Order of Merit will be similarly investigated, but the name, address and description of a widow of a pensioner will be reported by the C. M. A. concerned, to the station commander nearest to her home. Where the location of the residence of the claimant to pension renders such a course desirable, or where the application is on behalf of a "Purdanashin," officers commanding units may, at their discretion, send claims for family pensions direct to the Collector or Deputy Commissioner of the district concerned for investigation. Similarly, a station commander may send claims to the Collector or Deputy Commissioner of the district concerned for investigation. The proceedings will be recorded on I A F A. 366 or 368 according to whether the claim is one for an ordinary or extraordinary family pension. A-29336
(A. G.-14).

200. Interpreters.—When the officer appointed to investigate the claim to a family pension is not competent to interpret, an interpreter may be appointed in any language other than Urdu. A-29336
(A. G.-14).

201. Persons dying at their homes while on sick leave or while in receipt of disability pensions.—When a person proceeds to his home on leave on medical certificate on account of a disability certified to be attributable to military service or after being invalided from the service with a disability pension, the unit commander will send a copy of the medical certificate or medical board proceedings specifying the disability, to the Collector or Deputy Commissioner of the district in which the person resides. If the person dies while on leave or while in receipt of the disability pension, the unit commander will, on being made aware of the death of the person, procure from the Collector or Deputy Commissioner of the district concerned a certificate signed by a competent medical practitioner certifying to the immediate cause of death, and also stating whether death is due to the disability referred to in the copy of the medical certificate or medical board proceedings. It will then rest with the unit commander to decide from the nature of the certificate whether the action indicated in para. 199 should be taken.

203. Political matters.—Officers and soldiers of the regular army in India are forbidden to take part in, or institute any meetings, demonstrations, or processions for party or political purposes. They are also forbidden to belong to or subscribe in aid of any political association or movement.

204. Communications to the press.—When not at variance with the following instructions, the rules in the K. R. regarding communications to the press are applicable to all officers and soldiers serving in India.

An officer or soldier may not publish in his own name.—

- (a) any statement of fact or opinion which may embarrass the relations between the government and the people of India or any section of the people,

A-22-2. Accompaniments or proofs of the proposed propositions.

205. Government servant desiring other government employment.—No Government servant whether permanent or temporary may seek other government employment without the approval of his immediate superior.

206. Trading, borrowing and lending money.—No officer or other rank will engage in trade or will lend to, or borrow money from any person belonging to His Majesty's forces. Nor will be engaged in any transaction whereby he will become in a private capacity a debtor or a creditor of any person belonging to His Majesty's forces. Gambling is strictly prohibited.

207. Gifts from Indians.—No officer or other rank will directly or indirectly accept, either on his own behalf or any other person's any gift, gratuity or reward, from any Indian. A medical officer may, however, accept his legitimate fees for professional services rendered.

208. Subscriptions from Indian chiefs.—No officer or other rank will, without the previous sanction of the brigade or district commander, ask for or accept from any prince or chief, or the agent of any prince or chief, any subscription or other pecuniary assistance in pursuance of any object whatsoever.

209. Dealings with contractors.—No private dealings of any nature are permitted between an officer or a subordinate and a contractor, or a departmental servant.

210. Obligation to bring dishonesty to notice.—It is the duty of every person in military employ to bring at once to the notice of his immediate superior any case of dishonesty, fraud, or infringement of orders that may come to his knowledge.

211. Employment of government servants or property.—The employment of any government servant, animal or stores for private purposes is prohibited, except where such employment is specially authorized. No work for any private individual will be executed in military workshops other than those of regimental and corps units. Administrative officers may, however, sanction the execution of private work for government servants only, on the understanding that this sanction is confined to work which such individuals could not have had done elsewhere without great inconvenience.

212. Soldier running amok.—When an armed soldier (British or Indian) has broken loose in the manner commonly known as 'running amok' and is at large threatening or purposing to kill anyone in particular or all or any in general, it is the duty of all officers and soldiers to take steps to effect his capture and to prevent him carrying out his threats or purpose into execution.

In doing this an officer or soldier is entitled to take such measures of force as may be necessary in the circumstances of the case, and may take the life of the offender if there be no other reasonable means of preventing his carrying his threats or purpose into execution. If, however, it appears from the offender's action, e.g., the laying down of his arms, that he intends to surrender, he should be arrested in the ordinary way and dealt with in due course.

It is not necessary for an officer or soldier, before taking measures of force, to go up to the man who is running amok and demand his

surrender if by doing so he would incur imminent risk of losing his own life.

An order to shoot down the offender in such cases given by an officer, warrant officer or n.c.o. is a lawful command and will be obeyed.

213. Bankruptcy or arrest of an officer.—The bankruptcy or arrest of an officer by the civil power for debt, or on a criminal charge, will be reported to H. E. the C-in-C. An officer will be under suspension from the date of arrest.

214. An officer's suspension from duty.—Suspension from duty of an officer (as a measure independently of arrest) may be ordered by the unit commander or any other superior authority, not only when an officer himself submits his case for investigation, but also in any case in which an officer's character or conduct as an officer and a gentleman is impugned.

215. Exercise of command (a) Officers.—Officers while in civil employment are not entitled by virtue of their military rank to assume any military command in the army. Officers of the Survey of India may exercise military command over such Indian soldier surveyors as are serving departmentally under their orders and when such officers are attached to the general staff of an army in the field they will be entitled to exercise the authority due to their military rank.

217. Concealment of venereal.—In every Indian unit there shall be a standing order directing that a person subject to the I.A.A. who is suffering from venereal disease will report himself sick without delay. This order will be read to the unit on parade at intervals not exceeding three months, care being taken that it is specially brought to the notice of all recruits on joining their units. Concealment of venereal disease will be dealt with under section 39 (h) I.A.A. For forfeiture of pay see P. and A. Regs.

218. Posting and promulgation of certain orders.—The O. C. an Indian unit is responsible that all ranks are acquainted with the following sections of the I.A.A., viz., 13, 14, 16, 21, 25 to 49 and 50 (a) to (c) inclusive and the orders regarding the concealment of venereal disease. These sections are to be read once in every three months at the head of every unit on parade. They are also to be hung in the regimental guard-room.

219. Observance of religious customs.—The religious customs and prejudices of Indians will be respected. Officers will take special care that no act of theirs, or their subordinates, violates the sanctity of any place held sacred by Indians.

220. Complaints, Petitions and Appeals in general.—The A-30092 law regarding the representation of military grievances, under which (A. G.-8), British or Indian Officers and soldiers or Indian followers may conceive themselves to be suffering is contained in sections 42, 43 and 180 (2) (d) of the Army Act (British ranks) and section 117 of the Indian Army Act (Indian ranks). The submission through the medium of an association of any petition or representation in respect of a military matter is forbidden.

597. Detention of railway rolling stock.—Detention charges, as prescribed in the Military Traffic Rules, are leviable by the railway authorities in respect of rolling stock detained beyond certain

periods as specified below. It is incumbent on officers to ensure that such charges are not incurred unnecessarily:—

(a) Detention charges are levied by the railway authorities, in

livestock, at stations of entrainment and detrainment; detention charges are leviable in respect of rolling stock detained beyond these periods.

(c) In the case of wagons attached to ordinary trains a period of twenty four hours, free of detention charges, is allowed by the railway authorities for loading or unloading. This period is calculated from the time the wagons are made available by the railway authorities for loading or unloading.

(d) I

These rules are not applicable to consignments of coal explosives or other dangerous goods, to which the Military Traffic Rules do not apply.

598. Marshalling and loading of trains.—The railway authorities in consultation with the local military authorities, are responsible for the marshalling of vehicles of special troops trains.

Once a train is marshalled and handed over to the Military authorities, the arrangements made cannot be altered. The O. C. troops is responsible that the vehicles are correctly loaded, and at stations where such exist will be assisted by the R. T. establishment.

The railway authorities are empowered to detach empty vehicles, to re-marshall troop trains or to substitute other rolling stock and may require vehicles to be vacated at any station, and at any time when necessary for these purposes. When such action is necessary, the following principles must be observed so far as circumstances permit:—

(a) The sub-division of units is to be avoided.

(b) Guns and vehicles are to be conveyed in the same train as their teams.

(c) Drivers are not to be separated from their animals.

599. Examination of rolling stock.—The procedure to be observed when taking over and handing over vehicles is as follows:—

All vehicles assigned for occupation by troops or animals are to be examined before entrainment commences by the O. C. train, or by the conducting officer and by a medical officer, and if animals are to be

entrained by a veterinary officer or veterinary assistant surgeon when available, in company with a railway official, to ensure that all vehicles are in a clean and sanitary condition, special attention being paid to the latrine accommodation. Drinking water tanks, when provided, must be clean and filled with pure fresh water. When animals are to be entrained, the breast bar fittings of goods vehicles must be carefully inspected.

A list of all deficiencies and damaged fittings will be drawn up by the O. C. train, or by the conducting officer, on the damage memorandum provided by the railway authorities.

.....ed by the railway official
..... O. C. train, or by the con-
..... the doors of all wagons
containing government stores or troops baggage are fastened securely.

On arrival at the destination, a similar examination is to be held, and the condition of the vehicles compared with the damage memorandum compiled before entrainment. Any additional damage brought to light is to be assessed in accordance with railway's fixed schedule of charges and charged to the responsible individual.

If the individual responsible cannot be detected the cost of the damage is to be shared equally between the occupants of the compartment and paid for on the spot. If, for any reason the assessed damage is not paid for in cash, the O. C. train or conducting officer must sign an acceptance for the amount involved, which the station commander at the destination will forward to the unit concerned. The latter will pay the amount without question to the railway authorities, and make necessary recoveries from the individuals detailed in the memorandum.

601. Families not to travel by special troop train.—The families of officers and civilian subordinates are not permitted to travel by special troop trains

603. Entrainment and Detrainment.—When troops move by rail, the O. C. the unit or detachment is responsible for the issue of orders for the regulation of entrainment and detrainment, and for the preservation of order and discipline *en route* particularly during halts. These instructions are to be framed on the lines indicated in K. R. and F. S. R., Vol. II.

When allotting accommodation in troop trains, the numbers and units allotted are to be marked in chalk on the footboards below the

doors of carriage and compartments, and not on the sides or doors of carriages

On arrival at the destination troops are to be formed up and placed under cover, punkhas being provided, when available, during the hot weather

The entrainment of parties of British troops exceeding 100 in number is to be supervised when possible by a staff officer, or, when this is impossible, by an officer detailed to act for him. In the case of Indian troops travelling on duty the entrainment of parties exceeding 50 in number is to be supervised by a King's Commissioned Officer.

604. Animals, guns and vehicles.—The instructions contained in K R. paras 1062 to 1069 both inclusive are applicable generally to India.

The military authorities are responsible for the entrainment and

In the case of animals conveyed in horse boxes, one attendant

605. Entrainment of camels.—Instructions for the entrainment of camels are contained in I. A. S. C. Training.

606. Conveyance of animals.—Animals, other than officers' chargers, are to be despatched by mixed or goods train, unless military or veterinary reasons demand that they be despatched by passenger or special troop train. In order to avoid the necessity for transhipment en route large consignments of animals may be despatched by a route alternative to the main route (see para. 551) when despatch by the main route involves a break of gauge.

607. Accommodation for animals.—Under normal conditions horse boxes are provided for the conveyance of authorized chargers, and trucks or covered wagons for other animals

608. Accommodation for unauthorised chargers.—When spare accommodation, not required for authorized chargers, is available in horse boxes, attached to special troop trains, the G. C. troops may permit such accommodation to be utilized by officers for the conveyance of unauthorized chargers. The allotment of such accommodation when available, is to be made in order of juniority.

609. Kits and bedding.—Kits and bedding of troops are to be despatched by the same train as the troops to whom they belong. In cold weather, blankets are to be taken into the carriages by the men.

610. Handling of stores.—The military authorities are responsible for the loading except in the case of small consignment booked at parcel or baggage at junction which circumstances the railway authorities are responsible for the handling of consignments.

The despatching authority is responsible for the provision of such escorts or conducting parties as may be necessitated by circumstances. In the case of stores accompanying troops, two attendants, either soldiers or followers are to travel in each wagon containing inflammable stores, or forage.

611. Despatch of stores.—Stores will be despatched by the cheapest route and mode of carriage, but, in exceptional circumstances they may be despatched by a more expeditious method, provided the sanction of the competent financial authority to the extra expense, if any, is obtained. The responsibility for obtaining this sanction rests with the indenting officer, but, in cases of emergency, sanction may be anticipated.

612. Despatch to places outside India.—When stores are despatched from India for the use of His Majesty's Imperial or other Governments a packing account (I. A. F. Z. 2090) will be prepared in triplicate and disposed of in accordance with the instructions on the form.

613. Despatches by sea.—When articles are sent to a station beyond the sea they will be invoiced on I. A. F. Z. 2090 direct to the officer for whom they are intended.

A descriptive list of the packages with a statement of value of each package and with the railway receipts and a forwarding memo. will be sent to the I. A. S. C. representative at the port of embarkation (in the case of Bombay and Karachi to the Embarkation Commandant), who will arrange the onward despatch of the packages.

614. Despatches beyond rail.—Despatches to stations not situated on the railway will be made direct through the railway, if possible, otherwise through the I. A. S. C. representative at or nearest to the railhead.

Full particulars as regards the location of the unit, i.e., the nearest railway station, out-agency, etc., will be furnished by the indenting officers especially when the unit is in camp at other than a well-known station to enable the stores to be despatched to their correct destination.

615. Despatch to consignee on line of rail.—When the consignee is on the line of rail, or, if through booking is practicable, the consignor will either issue or apply to the I. A. S. C. for a credit note (I. A. F. Z. T. 1711) for the total weight of the consignment, and despatch the stores to the railway station where the weights will be checked and the rates filled in by the railway authorities. The railway receipts, issue vouchers and a letter of advice, if necessary, will be forwarded to the consignee.

616. Credit Note Details.—Details of stores despatched, together with the number and weight of packages, will be shown in the credit notes and vouchers in the case of all consignments, even when the consignment is made in full wagon loads.

617. Responsibility of railway.—The railway administration is responsible for giving a receipt specifying the number of articles, parcels or packages delivered to it for carriage and load into wagons on its premises. The fact that such articles, parcels or packages may be carried at owner's risk and despatched by the railway administration in complete loads will not absolve the railway administration from the responsibility of giving a receipt, and such receipts will be demanded by consignors of Government stores at the time the goods are tendered for despatch.

Receipts for a specified number of goods may not be claimed from a railway administration when goods are loaded in wagons in military sidings, unless stores so loaded are tallied at the time of loading by railway administration concerned.

618. Stores arriving late or without advice.—Stores which arrive before the railway receipt may be taken over on an unstamped indemnity bond. If stores do not arrive within a reasonable time which in no case will exceed two months from the date of despatch the consignee will take necessary steps to trace them. If the stores arrive without the vouchers the consignee will prepare a provisional receipt voucher and take them into stock. When the issue vouchers of the consignor are received, the consignee will sign one copy and return it to the consignor with a loss statement sanctioned by the competent financial authority for any deficiencies between the stores shown on the issue vouchers and those brought on charge by the provisional receipt voucher referred to above. Packages will be dealt with and enquiries made as directed in para. 620.

When full wagon loads are received, the consignee will ascertain whether the seals on the wagon are broken or intact and, if intact, note the actual lettering on the seals.

If the consignment is correct and in good order the consignee will accept delivery, the packages will then be opened in the presence of an officer, and compared with the packing notes and vouchers.

620. Deficiencies, discrepancies, loss or damages.—Loss or damages will be noted on the vouchers a receipted copy of which will be returned by the consignee. The full quantities of the stores vouchers will be taken on charge by the consignee and a loss statement prepared for the deficiencies. After the loss statement has been dealt with by the C.F.A. it will be the authority for posting off charge, the difference between the quantity vouchered and the quantity actually received. When stores are incorrectly invoiced the consignee will

refer the matter to the consignor and submit the result to higher authority if necessary. If the consignment is not in good order, it will be opened in the presence of a railway representative any loss, damage or discrepancy noted in ink on the railway receipt. The consignee will make the necessary enquiries with the railway authorities and the necessary claim with a valuation statement is to be preferred against the carrying company within six months from the date of delivery of animals or goods for carriage by railway. The consignee will furnish his accounts officer with in three months from the date of delivery with full particulars of the loss and a copy of the letter in which the railway authorities have accepted the liability. All necessary action will then be taken by the military accounts department. In such cases the loss statement to support the writing off of the deficiency will be endorsed "Railway accepts liability." The number and the date of the communication furnishing the particulars of the loss to the accounts officer will also be quoted on the loss statement. If the railway authorities refuse to admit liability the loss will be disposed of by the competent financial authority.

To ensure that all claims for compensation for loss of military animals and stores are preferred within the six months' time limit laid down in section 77 of the Indian Railways Act, IX of 1900, T A F T 1721 will be added to the section and read as follows:

obtain an acknowledgment of the claim from the railway. When articles received from a manufacturing establishment are found to differ from sanctioned authorities, such as Vocabularies or List of Changes, the following action will be taken:—

A discrepancy report will be forwarded, in duplicate, by the consignee to the consignor. The consignor's copy of the issue voucher will not be altered, but the consignee will amend his copy to show the stores as found by him on receipt and will bring them on charge accordingly, returning the issue voucher, duly receipted, to the consignor. The consignor will return to the consignee the original discrepancy report which will be attached to the consignee's receipt copy of the voucher. The consignor will mark up the original issue voucher showing the disposal of the duplicate discrepancy report. If the matter is one which cannot be settled by the consignor, it will be referred to the authorities concerned for a decision.

621. The general provision of paras. 616, 617, 618, 619 and 620 also apply in principle in the case of Government stores consigned by inland carrying companies other than railways.

622. Stores from private firms, contractors, etc.—When stores are received from private firms, contractors or through an agency, they will be compared with the sealed pattern, drawing, specification or other particulars available, but will not be condemned for slight or unimportant deviations. If not up to standard and the supplier

refused to replace them the matter will be referred to a station board composed of officers of experience, unless otherwise provided for by deed of contract. The decision of the board when confirmed, is final.

623. Imported stores India Office.—Stores imported through the India Office, if rejected on account of inferiority or not being up to pattern will not be disposed of until a reference has been made to the India Office through the head of the department concerned. If the stores are of trifling value, they may be sold under the orders of the Government of India, and a complete statement of defects, quoting

- (i) Invoices of stores landed at Karachi will be received by the E.S.O. (S. and S.), Karachi through the customs, and will then be transferred to the M. A. Dept. after necessary action has been taken to communicate to the Accountant General, Mercantile Marine Department, Board of Trade, London, the amount due on account of damage or discrepancies.

The recovery should be effected at the actual invoice rate, *plus* the authorised percentage for freight, packing and landing details of damage and discrepancies will be noted by the E. S. O. (S. and S.) on the invoices sent to the M. A. Dept.

In Bombay the Accountant General will deal similarly with invoices of stores. The non-receipt of, or discrepancies in, invoices will be reported to the India Office by the O.M.A. concerned or the Controller of Army Factory Accounts.

- (ii) Packing accounts will be forwarded to the consignee by the officer landing the stores. The original copy of the packing account will be retained by the consignee as his permanent office record, but whenever required by the M.A.D. for reference, it will be furnished and will be subsequently returned.

- (iii) The duplicate copy of the packing account will be receipted by the consignee, who after noting thereon all damages and discrepancies, will forward it to the depot accountant for transmission to the Controller as promptly as possible. The latter, after comparing it with the invoice received from the D. G. India Stores Department, and noting on the invoice any discrepancies, found between the packing account and the invoice will forward the packing account to the officer landing the stores, for transmission to England.

- (iv) Any military office receiving shipping documents for Government stores will forward them immediately to the E. S. O. (S. and S.) at the port of arrival to enable the latter to clear and despatch such stores.

In the case of books, publications, etc., despatched by book post, the duplicate copy of the packing account, duly receipted by the

consignee, should be returned by him direct to the D. G. India Stores Department.

NOTE.—The Duplicate packing accounts of military publications sent from Bombay by the Superintendent of Stationery will be returned to that officer by the consignee.

624. Octroi.—Stores accompanied by a prescribed certificate, endorsed thereon by a competent officer to the effect that they are Government property at the time they are brought into municipal limits, are exempt from octroi. In cases where such stores are subsequently sold the officer responsible for their import shall furnish to the cantonment authority on the first day of the month following the sale a certificate of goods sold, and shall arrange for the payment of the amount of octroi duty payable thereon.

625. Returns of stores.—When stores are returned to the supplying department, vouchers will be sent on the same day that the stores are despatched. For identification purposes, a copy of the order directing the return of the stores will be attached to the vouchers. All stores will be suitably packed. Packages containing ammunition cases (when returned in other than small arm ammunition boxes arms, or small arms components will be sealed in four places and the

weight.

626. Baggage wagons.—It is the duty of the railway authorities to hand over padlocks and keys for securing the doors on the both sides of baggage wagons on special troop trains, to the o. c. troops, who is responsible for the safe custody of the baggage en route and for the return of the padlocks and keys to the station master at the destination. Receipts are to be obtained whenever the padlocks and keys are transferred. Should the railway authorities detach a wagon, or assume charge of the contents of a wagon, the responsibility for the safe custody becomes theirs but the keys will be retained by the o. c. troops.

627. Baggage.—In all cases of loss of Government or other property in transit by special troop train, the o. c. troops is responsible that the matter is investigated thoroughly without delay, and that the result is reported to the local military authorities for such further action as may be necessary.

A soldier travelling by ordinary train is to be warned not to surrender his luggage ticket at his destination until he has taken over his baggage.

Should any baggage be missing, the individual in charge of the party, of the individual concerned, must report the loss to the station master without delay, and endorse the ticket, before handing it over, with particulars, of the baggage deficient, obtaining from the station master a signed copy of the ticket and endorsement. The individual should then report the matter to his o. c. who is responsible for taking action to recover the property, or to obtain compensation from the railway

authorities. If a settlement is not reached within a reasonable period the matter is to be referred to arbiters, one nominated by the o.c. concerned and the other by the railway authorities for decision, and if these cannot agree the case may be referred to a third arbiter whose decision will be final. If the matter cannot be settled locally in the above manner, it will be referred to district or independent brigade headquarters.

The commander of a unit, draft, or detachment travelling by rail is responsible that such goods are not packed in kits.

Articles of value such as watches, compasses, binoculars, telescopes, scientific instruments, valuable and important components

This declaration of value is necessary as otherwise under section 75 (1) of the Indian Railway Act of 1890, railway administrations cannot be held responsible for the loss, destruction or deterioration of such parcels or packages.

The sanction of the competent financial authority is not necessary in the above cases.

For parcels by rail of arms, ammunition and explosives—

— the responsibility of the consignor by the railway authorities

proceeding by rail is to accompany his charge to their quarters at the destination, and to report to the commander of the party before relinquishing his charge.

The special accommodation to which invalids and mental cases are entitled when travelling by rail is prescribed in A. R. I., Vol. X.

632. Hot weather precautions.—In normal circumstances the hot weather period lasts from 1st April to 15th October (inclusive), but the D. M. S. or the local medical authority is empowered to extend or reduce this period at his discretion, in the event of the prevalence of abnormal weather conditions.

When British troops travel by rail during the hot weather period the following precautionary measures are to be taken —

- (b) An additional four-wheeled vehicle or equivalent accommodation is to be provided on special troops trains for use as a coffee shop when there is no kitchen car on the train.
- (c) Ice is to be supplied by the I. A. S. C. throughout the journey on the scale prescribed in A. T. M. S., Part I.
- (d) Rolling stock fitted with electric fans is to be provided whenever available.
- (e) A compartment fitted with electric fans is to be allotted for use as a hospital on special troop trains, and on ordinary trains when the number of troops travelling exceeds 100.

H. Q.
- (i) (i) Officers may be allowed to travel over the Jodhpur Bikaner Railway at all times of the year subject to their being medically examined prior to their departure whenever hot weather precautions are in force.
- (ii) British other ranks may be permitted to travel over this line during the hot weather provided that they travel in second class carriages, that not more than four men travel in a compartment which should be fitted with

fans and provided with ice, and that the men travelling are medically examined before departure.

Q. the despatching authority is responsible that special precautionary measures, such as the provision of electric fans, drinking water and ice in carriages are observed, and that the individuals travelling are medically examined before their departure.

632-A When it is essential that Indian troops should travel by train in the hot weather period, the following precautions will be observed, in addition to any that may be taken under para. 576:—

- (a) Trains will be run to fast timings.
- (b) A compartment fitted with electric fans will be allotted for use as a hospital compartment, when the number of troops travelling is 100 or over.
- (c) For journeys over the N. W. Railway, when movement by day is involved, the carrying capacity of the cars will be 40 per cent of the number of the public accommodated in the seating space, irrespective of the length of the journey.

633. Outbreak of infectious disease.—An outbreak of infectious disease among troops travelling by rail is to be reported immediately by the individual in charge of the party by telegram to the district or brigade commander, as the case may be, to the o. c. the next military station *en route*, and to the station commander at the destination.

The o. c. the next military station *en route* is responsible for deciding, in consultation with the local medical authorities, whether the whole or any portion of the party shall be detained at the station.

The local district commander is responsible for deciding the action to be taken and for informing "Milrail" A. H. Q., accordingly.

In the case of troops proceeding to a port for embarkation the o. c. troops will report the outbreak of infectious disease by telegram to the A. G. in I., Q. M. G. in I., D. M. S. in I., and to the embarkation authority at the port (see para. 648).

634. Supply of drinking water.—When it is anticipated that there is likely to be difficulty in procuring an adequate supply of pure drinking water for troop travelling by rail, the despatching authority is responsible in consultation with the medical authorities for making such special arrangements for the supply of drinking water en route as may be considered necessary.

635. Rations, British troops.—When possible, kitchen cars are attached to special troop trains composed of military cars, to enable meals to be provided en route.

When kitchen cars are so attached, no special halts for officers' meals are permissible.

Ice for use in the refrigerators of kitchen cars is issued on the scale laid down in scales of rations and other articles of I.A.S.C. supply.

When kitchen cars are not provided on special troop trains the I.A.S.C. is responsible for the provision of hot meals to British troops at halt station (see para. 692). The scale of rations for such meals is prescribed in A. T. M. S., part I.

- (a) An emergency dry ration is to be carried on the scale of one per individual travelling in the case of British troops moving by special troop train, or by ordinary train in parties of 20 or more in number.
- (b) The I. A. S. C. authority who issues these emergency rations is responsible for informing the commander of the troops travelling of the stations en route at which rations, if consumed can be replaced.
- (c) If not consumed emergency rations are to be returned at destination to the I. A. S. C.

- (f) Small parties of troops under 20 in number who travel by ordinary train will draw allowance in lieu of rations.

636. Rations for Indian troops and followers.—For troop train journeys not exceeding 24 hours, men will entrain with cooked or specially prepared rations. For journeys of over 24 hours rations for the estimated number of days' journey, will be loaded and cooked either at the long cooking halts or in the wagon especially attached to the train for this purpose, *vide* para. 592.

In the case of troops proceeding for embarkation, the estimated number of days' journey will include the day of embarkation.

637. Allowance in lieu of rations.—The rules regarding the admissibility of an allowance in lieu of rations to troops travelling by rail are contained in J' & A Regns.

638. Liquor.—Soldiers travelling by rail are permitted to purchase 1 pint of beer or $\frac{1}{2}$ ounce spirits once daily, between the hours of 6 P. M. and midnight at all times of the year.

Commanders of parties are responsible that these amounts are not exceeded.

639. Subsistence for individuals and small parties.—British soldiers and their families when travelling alone or in small parties not under the command of an officer, provided that the soldiers are in uniform may obtain refreshments at 2nd class refreshment rooms at the following rates.—

The Baggage Officer will exercise general supervision of the landing of the baggage under the orders of the embarkation authority, who will arrange for the posting of sentries to warn troops to keep clear of the hatchways, and of the areas over which the winches and cranes are working.

If weather permits, the "present use" and "light baggage" of 1st, 2nd and 3rd class passengers will be stacked on deck in readiness to be landed at once. Sea kit bags with the troops, heavy kit bags which will be issued before arrival in port, and also rifles will be handled by the troops.

The light baggage of invalids, and of the families of British soldiers, will be handled by hired labour engaged by the embarkation authority.

A certificate to the effect that they have been so inspected, tested and found free from all symptoms of disease will accompany the animals and be handed over, if required, to the Government Veterinary Officer at the port of disembarkation. On the disembarkation at ports within Indian limits, military animals will be inspected by a military veterinary officer, or veterinary assistant surgeon, and must be passed as clinically free from infectious disease before being despatched to their station.

Medals.

716. Replacement of medals.—When a medal is lost or damaged, the replacement of lost medals to the G. of I. in the Army department concerned. The loss of a medal will be taken by the commanding officer and proceedings will be taken. The commanding officer will record his opinion as to whether the loss occurred:—

(i) when the soldier was on duty and from causes entirely beyond his control, (ii) by accident, (iii) wilfully.

In cases under (iii) the man will be dealt with under Sec. 24 of the A.A. and Sec. 35 of the I.A.A. If convicted the man must serve 3 years clear of a regimental entry before he can be recommended for a new medal, which may then be obtained for him on payment. If sentenced to imprisonment or detention the 3 years will be reckoned from the termination of the punishment.

When a person who has ceased to serve in the army loses a medal, the circumstances of the loss will be investigated by the officer under whom he is employed, if he is still in the government service, otherwise by the nearest civil officer.

Circumstances attending the loss of a medal by a person who has not served in the army will be investigated by the nearest civil officer, who will forward the application with an accurate description of the medal (and clasps) to the Secretary to the G. of I. in the Army Dept.

As it is necessary to safeguard medals falling into unauthorized hands, it is seldom that medals can be replaced at government expense. Such replacement can only be justified when the loss is entirely due to unavoidable circumstances. Loss by theft, or on account of loss of baggage while travelling will not justify replacement at the expense of the State.

If it be decided that the cost of replacement shall be borne by the individual the unit commander will forward the application direct to the Secretary to the G. of I. in the Army Dept. Care will be taken that the rank, number and spelling is exactly the same as on the original medal roll.

The Victoria Cross and bar or bars may be awarded posthumously.

Recommendations for the award of the Cross or bar will be submitted through the usual channel to H. If any person who is a recipient of the Edward Medal be convicted of any crime or disgraceful conduct, the circumstances will be reported to the Adjutant-General.

725. The Albert Medal.—The Albert Medal may be awarded to British or Indian ranks, or civilians, who, in saving or endeavouring to save the lives of others from perils of the sea, or from perils on land, have endangered their own lives. For every such additional act of gallantry, a bar may be awarded. The medal is of bronze, but if it is awarded for acts of such extreme and heroic daring as to merit a special degree of recognition "the Albert Medal in gold" may be awarded. If any person on whom the Albert Medal has been conferred, be convicted of any crime or disgraceful conduct the circumstances will be reported to the Adjutant-General.

726. Order of British India.—The Order of British India consists of two classes. The first class carries the title of "Sardar Bahadur" and consists of risaldar majors, subadar-majors, risaldars and subadars only, the second class carries the title of "Bahadur" and consists of Indian commissioned officers of all grades. All appointments to, and promotions in, the Order are made by the G. of I. for long, faithful and honourable service. As a rule Indian officers, senior sub-assistant surgeons and senior veterinary assistants on the active list are alone eligible. Vacancies in the establishment are filled as they occur. Unit commanders will submit annually (L.A.F. F-1020) three names for admission to the Order. An Indian officer of other rank including a senior sub-assistant surgeon with the rank of subadar, who is a member of the first class will, on retirement, be granted the honorary rank of Lieutenant. 727. Indian Order of Merit.—The Indian Order of Merit consists of a military and civil division, the former having two and the latter three classes. Indian officers and soldiers are eligible for admission to the military division as a reward for conspicuous personal gallantry in the field, and also to the civil division for personal bravery in aid of the public authority and safety. Promotion in the Order is similarly obtained. In submitting recommendations, the act of gallantry, which must be conspicuous as distinguished from ordinary bravery in the performance of duty, shall be specified, and the testimony of eye-witnesses shall be given.

A record of the act of gallantry for which an individual is admitted to or promoted in the Order is kept, and a certificate is issued to him by the G. of I. Recipients of the Indian Order of Merit, both military and civil divisions, are permitted to add the letters "I.O.M." after

their names. On promotion in, or removal for misconduct from, the Order, the insignia in possession of the individual will be returned to the G. of I.

E. the C-in-C, to enable the G. of I. to decide whether the decoration and the accompanying allowance shall be forfeited.

729. The I.D.S.M.—The Indian Distinguished Service Medal may be awarded to Indian officers and other ranks of the Indian Regular Forces including the reserve of the Indian Army, Border Militia, Levies and Military Police, and Indian State Forces, when employed under the orders of the G. of I., who have distinguished themselves in peace or on active service by acts of specially meritorious service, or who have shown personal bravery not amounting to the standard required for the Indian Order of Merit. Decorations for civilians in the field.—European civilian subordinates when serving in the field and holding relative British rank as officers, warrant officers or non-commissioned officers, are eligible for such British distinctions as the nature of the services brought to notice would deem to merit. The Order of the British Empire should be regarded as the normal reward in the case of European civilian subordinates holding relative rank as officers and, in the case of other ranks, the Meritorious Service Medal, without annuity, should be awarded. An individual is not however precluded from receiving other forms of military award for gallantry in the field under fire, should such a case arise.

731.

732. Honorary ranks.—A step of honorary rank, on or after retirement with the title of honorary risaldar-major, risaldar, subadar-major, and subadar may be bestowed on Indian officers who are recommended by H. E. the C-in-C, as specially deserving of this honour.

Instructions regarding the submission of recommendations for this reward will be found in I. A. P. Z-2000, and on I.A.F. Y-1920-A.

1. PRECEDENCE.

735. Precedence of units.—The order of precedence of Indian units of the regular army, of units of the Indian Auxiliary Force, and of units of the Indian Territorial Force, among themselves is laid down in the Indian Army List. CHAPTER XV.—INDENTS, STORES AND RESPONSIBILITY, FOR CASH AND FUNDS.

1. INDENTS.

813. General.—Indenting officers are responsible that requirements are ~~forwarded~~ as far as possible, that indents are submitted on the date due, and that they are framed with economy and regard to the requirements of the service. An ordinary indent is one that is provided for by regulations; an emergent indent is one that is submitted for authorized stores on other than the prescribed dates, or for unauthorized stores.

An emergent indent is only to be submitted when stores are urgently required, and, in the case of authorized stores will be submitted to the brigade or district commander for countersignature, explaining why the indent was not submitted on the due date. In the case of unauthorized stores action will be taken under para. 816.

Indents will be signed by the indenting officer and not by a subordinate, except as laid down in paragraph 28 (c) of the Regulations, for the Equipment of the Army (India), Part I (Provisional). 4222 (Q.
M. G.-9-A).

814. Submission.—Indents will be submitted on the proper form in accordance with the prescribed nomenclature, and will contain all information necessary to facilitate compliance. Indents will not be returned for errors in nomenclature unless there is a doubt as to the stores required.

An officer will indent only for authorized stores in authorized quantities and indents will be complied with on his personal responsibility. He will be held liable for the value of over-issues, which will not be received back by the supplying department without the sanction of the district commander, and credit for their value will be ~~at~~ once enforced by the S. A. Dept. The supplying officer will be responsible that the class of stores is admissible by regulation, and that the amount is correctly calculated in accordance with the data furnished on the indent. Indents submitted by detachments will be countersigned by the unit commander. Indents submitted to an

authorized annual allowance.

815. Delay in compliance.—Indents will be complied with without delay, but, if delay is probable, the supplying officer will inform the indenting officer accordingly and will explain the reason. If the indenting officer considers that the delay will affect the efficiency of his unit, he will bring it to the notice of higher authority. Delays which appear unreasonable will be brought to notice at once.

65970 (Q.
M. G.-12).

816. Indents for unauthorized stores.—Indents for stores not covered by regulation (accompanied by L. A. F. A-497) will be forwarded to the competent financial authority by the indenting officer for sanction after the latter has ascertained from the accounts officer concerned the cost involved and in the case of ordnance stores from the C. O. O. concerned whether the stores are available for issue. In the case of non-expendible stores, the competent financial authority will fix the date of return to the supplying department, which will not exceed three months from date of issue except in the case of stores required for antimalarial measures, the period for which may, on the recommendation of the medical authorities, be extended to six months.

Z-3194 (D.
M. S.-5).

Where the same stores are required twice in one year or in successive years, the indent will show date of last sanction and quantity sanctioned. In such cases, the competent financial authority will at once apply to A. H. Q. through the usual channel to regularise the issue in the regulations concerned. When stores are required on medical or veterinary grounds, the opinion of the highest local medical or veterinary authority will be obtained.

2705 (Q.
M. G.-9-A).

816-A. Stores (except tentage) required temporarily for the training of troops may be issued on loan on an indent countersigned by the Brigade Commander. Stores so obtained must be returned to the arsenal or depot from whence received as early as practicable and certainly within three months from the date of receipt by the unit. A second issue of the same stores cannot be sanctioned until the following training season. In exceptional circumstances, should the retention of such stores by a unit be necessary for a period exceeding three months or if the same stores are required year after year, the Brigade Commander will report the matter to higher authority for the sanction of Government to regularise the issues, and to have the stores included in the equipment scales of the unit.

The cost of such stores when lost or returned in an unserviceable condition and the cost of repairing stores returned in a damaged condition will be dealt with by G. Os C. under their financial powers as laid down in A. R. I., Vol. III.

817. Telegraphic demands.—Telegraphic demands may be made in cases of exceptional urgency, but an indent with a post copy of the telegram will follow through the prescribed channel.

U. O. No.
1704-5254,
dated 31st
July 1926.
D. G. I. M. ■

818. Payment.—Payment indents will be submitted in accordance with instructions laid down in Equipment Regns., Part I, and A. R. I., Vol. XI, for ordnance and clothing stores, A. R. I., Vol. V, for I. A. S. C. stores and Regulations for the Medical Services of the Army in India, for medical stores.

819. Replacements in the field.—Field service indents for replenishment of stores will bear a certificate of the unit commander that the articles demanded are required to replace others worn out or expended. If replacement has become necessary owing to the wilfulness or neglect of an individual, it will be made at his expense.

turned to the department of supply, they will be departmentally surveyed. If the defects are due to fair wear and tear, they will be repaired or otherwise disposed of; if due to any other cause, the action prescribed in A R L, Vol. III, for dealing with loss or damage will be followed. School books and materials will always be repaired regimentally. Articles supplied by the I. A. S. C. will, on condemnation, unless ordered to be destroyed on sanitary grounds, be made over to that department for disposal. If possible, they will be utilised departmentally.

835. Auctions and sales.—Due publicity will be given to every auction or sale. No individual of the department or unit concerned may bid for or buy any article in the sale. An officer of the department

or unit will attend and he is empowered to stop the sale if he considers that fair prices are not being realised. Metals will be sold by weight, other articles will be sold by weight or numbers (not by bundles). No commission is admissible to a government servant who may be required to act as auctioneer.

838. Stock-taking.—Officers-in charge of stores of every description are responsible for periodical stock-taking. The heads of departments concerned will ensure that stock is taken as often as necessary. The condition of stores on stock-taking will be noted, and steps taken to repair or dispose of repairable or unserviceable stores. Surplus stores will be brought on charge and discrepancies adjusted.

Scales and weights will be tested before stock-taking.

839. Disposal of departmental stores.—Unless orders to the contrary are received, stores left behind by a unit moving, will be disposed of as follows:—

- (i) *Ordnance and I. A. S. C. stores.*—The unit commander will prepare a list on I. A. F. Z-2098 and forward it to the C. M. A. concerned. If the unit commander does not hand over personally to his successor, a copy will be given to the officer temporarily assuming charge, who will give it to the relieving officer in exchange for a transfer certificate. If the unit is not relieved, the stores will be returned to the supplying department on issue vouchers, copies of which will be sent to the C. M. A. concerned.
- (ii) *M. W. stores.*—These stores will be handed over to the garrison engineer.
- (iii) *Medical stores.*—Field equipment will be returned to the medical stores depot.
- (iv) *School stores.*—A list will be prepared on I. A. F. X-1882, 1883, 1891 and sent to the district commander in a case where the unit commander does not hand over directly to his successor, and action will be taken as in sub-para. (i).

840. Carriage for public stores.—Carriage for the conveyance of public stores will be supplied by the I. A. S. C. (I. A. F. Z-2150). Where there is no representative of the I. A. S. C., the station commander will hire the transport and recover the cost in the usual manner.

841. Packing material.—All packing cases over 1 c ft will be accounted for. All empty packing cases and other packing material received by units from departments, which are not required, are

to be made over to the local I. A. S. C. officer (except as provided for in E. Regs., Part I, India, 1922), who will grant a receipt. Rum casks will be accounted for and returned to the supplying department. Ordnance and clothing packages and packing material will be retained if there is any reasonable prospect of the unit or other units in the station utilizing them for the return of stores. Supplying departments will sell by auction such packing materials as cannot be utilized and credit the proceeds to Government.

842

3. RESPONSIBILITY FOR EXPENDITURE, CASH AND FUNDS, ETC.

843. Responsibility for expenditure.—Unauthorised expenditure will not be incurred without the prior sanction of the competent financial authority; but in cases of urgency which do not admit of a prior reference to the competent authority; sanction of the senior military officer will be obtained, and the confirmation of the competent authority applied for, immediately after the expenditure has been incurred. Officers concerned will be held responsible for authorising expenditure not provided for by regulations, and orders conveying sanction for such expenditure will be given in writing.

844. Charge of cash or stores.—Every officer in charge of government money or stores will, on handing over charge, check the cash or stores in his custody in company with the officer who relieves him. A transfer of charge will always take place when an officer proceeds on any duty in which he ceases to hold a lien on his appointment, or when he proceeds on leave out of India (other than privilege leave unless he intends to retire while on such leave). In other cases an officer need not formally make over charge, provided, he holds himself responsible for the acts of his *locum tenens*.

A-38440
(A. G.-13).

The relieving officer will take all necessary measures to satisfy himself that the cash or stores are in accordance with the Indian balance

after taking over the appointment. Any omission to furnish these certificates renders the relieving officer responsible for his predecessor's liabilities. Lists of all damaged property and discrepancies will be made out (I. A. F. Z-2098) and attached to the transfer certificates. Whenever cash or stores are transferred from one charge to another, a temporary receipt will be taken in anticipation, if necessary, of the issue of formal receipt vouchers.

If an officer in charge of government property dies or is admitted to hospital before being duly relieved, it will be the duty of the senior officer on the spot to provide for the security of the government property and at once to take over the cash and stores. When the direct transfer of public stores (other than those in charge of a department of supply) between the office in charge and his successor is impracticable,

the station commander will take them over and complete the transfer. In the case of a corps leaving India before relief, this rule will only apply to those stores that are not returned to departments.

845. Procedure in case of discrepancies.—Should any difference of opinion arise between the officers given over and receiving charge regarding the condition, description, or quantities of the stores on charge, a station board will be assembled to report on the matter. The board will state the causes to which, in its opinion the discrepancies are due, and will forward the proceedings in triplicate to the convening officer for disposal.

A-25384
(A. G.-13).

846 Custody of funds.—Every officer is responsible for such public, regimental and other funds as are entrusted to him, and he cannot refuse to take charge of such funds. He will see that they are expended in strict conformity with regulations, and will keep such records of his monetary transactions as may be prescribed. Public funds (see A R I., Volume III) and regimental funds (see Appendix XXII) will not be kept in an officer's own possession or deposited to the credit of a private account.

In order to avoid risk of loss from treasure chests public funds may be kept in a branch of the Imperial Bank of India, current accounts being opened in the official capacity of the officer concerned. Officers commanding units and others concerned with the administration of such funds will adhere to the fundamental rule that public money is not to be drawn from a treasury before it is actually required for disbursement.

A-38413,
A-37833 &
A-30785.

Authorized regimental funds, including regimental funds of Auxiliary and Territorial force units and Army Institute Funds, may be invested in Government paper or in shares of the Imperial Bank of India; such funds may be kept in a Branch of the Imperial Bank of India, or, with the previous consent of the Controller of Military Accounts concerned in any other bank, subject to the rules reproduced in Appendix XXII.

847. Responsibility of unit commanders.—Unit commanders are responsible for the state of the accounts of their units and that officers and subordinates under them carry out their duties correctly and efficiently. Unit Commanders are primarily responsible for losses and discrepancies caused by their subordinates.

848. Loans.—Officers commanding Indian units may in exceptional circumstances and at their discretion, grant advances from regimental funds to Indian officers and other ranks. In such cases unit commanders will protect themselves by proper safeguards in regard to the amount, the date of repayment and, if necessary, the interest on the advances.

849. Losses.—Losses incurred by mess, regimental or battalion funds owing to unsound finance, embezzlement or similar causes, will not in any circumstances be borne by the State.

850. Treasure chests.—A treasure chest will be maintained in every unit. The unit commander will take such measures as will ensure the security of treasure chests and issue the necessary instructions regarding deposits, withdrawals and custody of keys. It will invariably be guarded by a double sentry, one of whom may be the sentry of the guard room door, provided the treasure chest is quite close to it and in full sight of both sentries.

In the case of British units the keys of the treasure chest will be in the possession of an officer selected by the unit commander. The treasure chest will only be opened in the presence of an officer. In the case of Indian units, the keys will be in the personal charge of the Indian officer appointed as cashier.

M. A. G.'s
No. 2344-
At., 10-1-24.

Treasure chests will be strongly made and locked and will be secured by an iron chain and padlock or other means to the floor or wall of the guard house so as not to be moveable without force and by the combined efforts of several persons.

Small units which are unable to guard their treasure chests in accordance with the above will arrange to keep their treasure chests under the guard of the nearest unit or deposit their cash in the treasure chest of that unit.

Treasure chests and their accessories are provided by Government and maintained as original or battalion stores.

851. Private deposits.—Private deposits in station or regimental treasure chests are unauthorized, but when the station commander considers it necessary they may be received at the depositor's risk.

852. Savings banks.—Commanders of Indian units may open a single account with the post office savings bank on behalf of the men, on the conditions contained in the Indian postal guide.

853. Employment of shroffs.—The employment of shroffs or Indian bankers by units is prohibited. This prohibition does not apply to the banking of regimental funds carried out with the approval of the C. M. A., in accordance with the rules prescribed in Appendix XXII.

854. Escorts.—A unit commander is responsible for the provision of suitable escorts to safeguard all monies or cheques drawn from or despatched to banks or treasuries.

855. Disbursement of pay.—Every officer charged with the disbursement of pay is responsible that those serving under him receive the amounts due to them. All fines and deductions will be notified in orders and explained to the individuals concerned. Payment will be made in the presence of an officer. Every man will examine his account and sign the acquittance roll or pay bill or affix his thumb impression to it, payments being attested by the disbursing officer.

Acquittance rolls after completion and reconciliation with the pay lists will be filed in the custody of the officer responsible for their

payment. After disbursement, squadron, battery and company commanders will personally ask all men in the unit whether they have received their pay in full.

856. Handling of cheques and money.—Every cheque and all money (including undisbursed pay) will be kept in safe custody under the rules laid down in regimental accounts. No clerk, n.c.o., or man is permitted to handle money or cheques and all payment will be made by a King's commissioned or Indian officer.

Para. 857 R.A.I. (1930)

A.44913 857. Method of keeping accounts
(A.G.13) and making out cheques All entries in the treasure chest cash book, adjutant's cash account and accounts of funds otherwise designated, but equivalent to these funds, will be made out in ink by the respective officer in charge of the fund who will himself check and initial all entries in the account books. He may delegate the duty of writing up the cash books, etc., to a subordinate commissioned officer, but he will still exercise a direct supervision over all money transactions and will not be relieved of financial responsibility for any losses which may occur in connection with his accounts. He is personally responsible for the correctness of amounts authorised by him to be paid by a subordinate officer.

An officer who is prevented by ill-health from returning to duty within the maximum period of two years' absence will, unless specially granted an extension of leave without pay, be placed on the temporary non-effective list or on the retired list as the circumstances of the case may require. An officer will also be liable to be placed on half pay or on the retired list should his health require an undue amount of leave whether in or *ex-India*. APPENDIX VII.**RULES FOR THE SUBMISSION OF PETITIONS TO THE G. OF I.
BY PERSONS FORMERLY IN MILITARY EMPLOY.**

The rules for the submission of petitions to the G. of I. by persons^s who have been, but are no longer in military employ, are laid down in Home Department Notification No. 534 (Public), dated 30th June 1916, extracts from which are summarized below :—

- I. Every petition will be forwarded through the official channel to the local Government (C-in-C., G. O. C-in-C., and district commander) with a letter requesting its transmission to the Government of India.
- II. A petition may be in writing or in print, but shall, with all enclosures, be properly authenticated by the memorialist's signature, and shall conclude with a specific prayer.
- III. A petition should be forwarded to the G. of I., with a concise statement of material facts, any service or character book of the individual, and an expression of an opinion on the merits of the case. If not in English a translation should accompany it.
- IV. If the appeal be against dismissal by the local Government it should be shown whether the charge, the petitioner's defence, and the orders thereon were reduced to writing.
- V. A local Government may withhold a petition—
 - (1) When a petition is illegible or unintelligible.
 - (2) When a petition contains language which, in the opinion of the local Government, is disloyal, disrespectful or improper.
 - (3) When a previous petition has been disposed of by the S. of S. for India or G.-G.-in Council, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.
 - (4) When a petition is a mere application for relief, pecuniary or other, which is presented by a person manifestly possessing no claim, or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.
 - (5) When a petition is an application for employment from a person not in the service of Government; or is a request for exemption from the provision of any law or rule prescribing the qualifications to be possessed by persons in the service of government or by persons engaging in any profession or employment.
 - (6) When a petition is an appeal against the discharge of a person appointed in India on probation, if his discharge was ordered before the termination of his probation.

- (7) When a petition is an appeal from a judicial decision with which the executive has no legal power of interference.

NOTE—In the following cases, namely:—

- (a) when a petition is an appeal from a judicial decision in a case in which the Government has reserved any discretion of interference, or
- (b) when a petition is an appeal from a judicial decision in a suit to which the Government was a party, or
- (c) when a petition is an appeal from a judicial decision in a case in which the Government was a party, or

- (8) When a petition is an appeal against the appellate order of a local Government upholding a decision directing the dismissal, removal, reduction or other punishment of a government servant or an employee of a local authority whose salary was less than Rs. 250 a month.

NOTE 1.—If the appellate order of the local Government modifies the order appealed against to the disadvantage of the appellant, such appellate order should, for the purpose of this rule, be regarded as an original order of the local Government and the appeal should be transmitted.

NOTE 2—The local Government should, for the purposes of this rule, be considered to have upheld a decision if it modifies the order appealed against to the advantage of the appellant.

NOTE 3 —The words "appellate order" include any order passed on revision.

- (9) When a petition is an appeal against the order of a local Government refusing to grant or to recommend a special pension or any pecuniary or other concession not claimable under any law or rule, or a compassionate pension, unless in the last case the petition is from an officer dismissed or removed from government service, who under these rules has a right of appeal against the substantive order of dismissal or removal.
- (10) When a petition is an appeal against a decision which by any law or rule having the force of law is declared to be final
- (11) When a petition is addressed by an officer still in the public service and has reference to his prospective claim for pension except as provided in article 915 of the C. S. R.
- (12) When a petition is an appeal against the non-exercise by the local Government of a discretion vested in it by law or rule.
- (13) When a petition is an application in a case for which the law provides a different or specific remedy, or in regard to which the time limited by law for making the application has been exceeded.
- (14) When a petition is an appeal against an order or decision of the local Government, and is made more than six months after the communication of such order or decision to the petitioner without satisfactory explanation of the delay.
- (15) When a petition relates to a subject which the local Government is competent to pass orders and no previous

application for redress has been made to the local Government.

- (16) When a petition makes a proposal regarding legislation which the local Government is not prepared to support.
- (17) If a petition is withheld, the petitioner should be informed of the fact and the reason for it.
- (18) A list of petitions withheld under rule 11, with the reasons for withholding them, shall be forwarded quarterly to the G. of I. in the proper Department.

Submission of petitions to the Military Authorities.

The following procedure will be observed in the case of petitions submitted to the military authorities by persons who have been, but are no longer, in military employ (including Reservists) or their relatives.—

- (a) In the first instance the person who wishes to submit a petition should, whenever possible, consult the nearest member of his District Soldiers' Board or District Soldiers' Committee.
- (b) When necessary a petition will subsequently be addressed to the Commanding Officer of the petitioner's late unit or in the case of disbanded units to the authority indicated on the discharge certificate; where possible the remarks of the member of the District Soldiers' Board concerned being endorsed thereon.
- (c) Petitions should in no case be sent direct to His Excellency the Commander-in-Chief or to Officers at Army Headquarters. Petitions so addressed involve further delay in examining the petitioner's request as it is invariably necessary to refer to the Commanding Officer of the petitioner's unit before any reply can be given.
- (d) Commanding Officers will only after careful consideration refer to higher authority, petitions which they are unable to dispose of themselves or on which it is desirable that the orders of higher authority should be passed; any petition so referred will be accompanied by full particulars and, where possible, a definite recommendation.
- (e) Commanding Officers will ensure that these orders are understood by all persons in military employ at the time of their discharge.

Appendix IX. Civil offences by Persons, Subject to Military Law.

Defence of soldiers charged with criminal offences.

The following are the rules for the defence of British and Indian soldiers charged with criminal offences, and prosecuted by Government in civil courts:—

(1) When soldiers are to be tried by a civil court upon any criminal charge, the brigade commander should consult the district magistrate and arrange with him for the selection and remuneration of a pleader, advocate, or barrister, as the importance and necessities of the case may require.

(2) The maximum amount that may be paid to the pleader, advocate or barrister is (a) Rs. 100 for each day that he appears in the case before a High or Chief Court, or (b) Rs. 50 for each day that he appears in the case before any other court. These amounts include expenses of every description which counsel may incur.

(3) The Brigade Commander is only to appoint a pleader, advocate, or barrister in cases where he thinks it desirable. The amount to be paid to counsel will be definitely settled beforehand, subject to the maxima above. If suitable counsel cannot be obtained for the remuneration admissible under these rules, the case should be reported to superior authority with a view to the orders of government being obtained thereon.

(4) When counsel is rightly provided for the defence of a soldier at the first trial in a civil court, counsel can also be provided when considered necessary on appeal, subject to the limitations laid down in rules (2) and (3).

(5) (a) The term 'soldier' in (1) includes British regimental warrant and non-commissioned officers and privates and army reservists up for training or called out for service, it also includes Indian regimental n. c. os. and privates, and regimental reservists up for training or called out for service.

(b) It does not include British officers, departmental warrant officers (including assistant surgeons), departmental, n. c. os. and private and army reservists not up for training and not called out for service, nor does it include Indian officers, warrant officers (including sub-assistant surgeons), regimental n. c. os. and privates when on leave, all non-regimental non-commissioned officers and privates whether on leave or not, and all non-regimental reservists, regimental reservists not up for training and not called out for service, departmental and regimental followers, or any classes beyond those specified in clause (a).

APPENDIX XIII.

(Referred to in para. 422.)

RULES FOR THE PURCHASE, HIRE AND SELECTION OF CHARGERS.

1. (a) The general principle underlying the charger concessions is that those officers (excluding departmental officers and Civil officers in military employ) holding the King's commission, who are required to be mounted in war for the efficient performance of their duties in the field shall maintain chargers in peace. Officers should provide themselves with suitable chargers at their own expense, in accordance with the scales laid down in Pay and Allowance Regulations, Part II. To assist these officers in providing themselves with chargers, they will be allowed to purchase horses from Government at the concessional rates laid down in Pay and Allowance Regulations, Part II, to be paid in 12 15 or 18 monthly instalments, as the case may be (or earlier at the officers convenience)

(b) Officers wishing to purchase chargers from the ranks of their own units will apply direct to the unit commander. Those wishing to purchase chargers from a remount depot or from the ranks of other units will apply to the Remount Officer with Command Headquarters, through their own unit commanders.

In addition to the number of chargers purchased from the ranks by officers serving with the regiment, selections of chargers for purchase will be permitted from each I. O. regiment, up to a maximum of 12 chargers annually per regiment, by the officers detailed below:—

- (1) Officers of the Staff
- (2) Officers attached to the Staff
- (3) Officers serving with dismounted units

(c) On removal of a selected charger from a remount depot or a unit, the selecting officer takes all risks and becomes liable for its value at the concessional rate. Officers are recommended to protect themselves against loss by insuring their chargers as Government is in no way responsible once the horse has been removed from the depot or unit except in cases of exceptional nature as provided for in P. and A. Regs.

(d) If an officer is promoted before payment for the horse has been completed he will only complete payment up to the scale laid down for the rank he held when the horse was originally selected.

(e) For rates payable for officers chargers see F and A Regs, Part II.

saddlery will be borne on the charge of the unit, and will not be transferred with the officer.

2 The following rules apply to the disposal of chargers:—

(a) A charger purchased from Government at concessional rates becomes an officer's property when fully paid for, but may not be sold except to Government for five years from the date of original selection unless Government agrees to sell.

the officer's property absolutely.

(b) Before the period of five years from the date of original selection has elapsed, a charger may be resold to Government under the conditions laid down in para. 3 (a) but officers will not be allowed to purchase from Government another charger at concessional rates for five years from the date of original selection, unless the charger previously obtained has died, become unfit for service or was resold to Government, and the cause of resale to Government is transfer ex-India or some adequate reason of which the director of remounts shall be the judge. Leave ex-India will not be considered an adequate reason.

(c) Except on mobilization, Government will not re-purchase chargers over 12 years of age. The owner of a charger over 12 years of age is at liberty to sell it privately, even if it has not been in his possession for five years as laid down above.

(d) Should an officer die before he has paid for the horse in full it will be returned to the Remount Department and his estate will be credited with the value of the horse at the time as assessed according to para. 3 (a) less any balance due to Government for the purchase of the horse. If unfit for service it will be sold under the orders of the unit commander and the proceeds credited to the officers' estate less any balance due to Government for the purchase of the horse.

(e) All chargers resold to Government under the above rules must be passed fit for service by a station board.

(f) When chargers are resold to Government, they shall be returned to a remount depot or unit at the expense of the officer concerned except in the case of chargers repurchased by Government on mobilization, when all expense connected with railway freight, etc., will be borne by Government.

3. (i) When mobilization orders lay down that officers' chargers are to be taken over by the State, they will, if credited fit for service by a board, be taken over by Government in accordance with the following rules:—

(a) Horses purchased at concessional rates will become the property of Government who will refund to the officers con-

cerned the full concession rates paid by them, reduced if the horse is over six years of age; by 10 per cent. of that concession rate for each complete year the horse has been in the officer's possession. The purchase by an officer of a horse at concession rates involves the above mentioned liability at all times.

(b) Officers' chargers purchased by them in any other way will also be taken over by the State if certified fit for service by a board which board will also determine the value at which the charger shall be taken over. This value shall not exceed the amount payable, age for age, for the concession charger referred to in clause (a) of this paragraph. The receipt by an officer of syce allowance and free forage for a privately purchased horse in peace time involves the liability of its being taken over by the State on mobilization.

(c) Officers who own privately purchased chargers for which syce allowance and free forage have not been drawn in peace time and who wish to take such chargers into the field will, provided such chargers are within the number authorised for their rank or appointment, be allowed to do so at their own risk, and will not be entitled to compensation for the loss of such private horses, and must clearly understand that no guarantee can be given that such horses will be restored to them once they have been evacuated sick or wounded or have left the field force for other reasons.

(ii) If it is laid down in mobilization orders that officers' chargers 50478 Q.
will not be taken over by the State, officers' chargers will not be taken over by the State.

4. In applying the above rules all commanders will be guided by the principle that the selection or return of chargers is authorized for the good of the public service and not for the benefit of the individual.

5. The following rules apply to the hiring of chargers—

(a) An officer requiring a charger on hire will apply to the inspector of remounts of the command on I. A. F. H.-1107 attaching the sanction of the district commander for the hire of a charger.

(b) An officer hiring a charger will pay Rs. 12-8 per mensem, and will be entitled to draw syce allowance and forage for each horse. The horse will not be shod at public expense. Should it become non-effective it will be replaced on application to the inspector of remounts of the command on a certificate from the unit commander that the horse has not been misused, but such replacement will for the purpose of sub-para (c) reckon from the date it is actually taken out as a charger and not from the date that its predecessor was taken out.

- (c) * * * * *
- (d) due to accident or injury when the horse is being used otherwise than on military duty. Should a disability occur when it is being used on military duty, the officer will be held similarly responsible. If it be determined that there has been neglect, recklessness or ill-treatment of any kind, in either case the financial responsibility will be assessed as in sub-para. (e).
- (e) Accidents to hired chargers on or off duty will be immediately investigated. If, in any case, it is decided that an officer is responsible he shall pay:—
- (i) If the horse is, or is subsequently found to be permanently unfit for duty, the full price laid down in sub-para 1 (d) for the rank of the hire at the time the casualty occurred reduced by ten per cent. of this price for each year, if over six years of age, that the horse has been in the officer's possession.
- (ii) If the horse is temporarily unfit for duty, the hirer will be liable for all the expenses of hospital treatment, etc., incidental to the complete recovery of the horse.
- (f) A horse rendered permanently unfit for duty will remain the property of the officer who paid the assessed value of the horse.

APPENDIX XIV.

1. Horses may not be boarded outside the district in which the unit headquarters are stationed except with the authority of the G. O. C-in-C. of Command. The sanction of the Q. M. G. in India will be necessary for the boarding out of horses outside the Command.

2. Allotment.—There is no limit to the number of horses that may be boarded with any one applicant. Officers on the active list may become allottees on production of a certificate from the unit commander or analogous authority, that the applicant is in possession of his obligatory chargers and will continue to maintain them and will not claim forage, or forage allowance for the boarders.

3. Despatch by rail.—Horses will not be despatched by rail unless a responsible person has been sent to take delivery and has in possession the rail freight, the necessary travelling gear and forage, and advice from the railway as to rail accommodation having been provided.

4. Types allotted.—Preference is given to applicants for riding horses and no horse shall be certified as quiet to drive.

5. Payment.—Before the horse is despatched the allottees shall have paid into a Government treasury the first annual insurance premium of Rs 75.

6. Inspection.—All boarded out horses in the same station as the unit will be inspected at least half-yearly under the orders of the unit commander. Boarders at out-stations will be inspected by a suitable officer under the orders of the district commander, the inspection report to be sent to the unit commander.

REGULATIONS FOR RURKI SURVEY CLASS (INDIAN RANKS).

(Referred to in paras. 311-313)

1. A proportion of surveyors, who are passed out of the Indian survey class at Rurki annually, will proceed under arrangements which will be made between the Chief of the General Staff and the Surveyor-General, to join parties of the Survey of India, for either one or two periods of extra training.

2. The first period of extra training will occupy about one year and ten months and will commence from the day after that on which the man leaves his military unit to join the Survey of India. This is usually about July 1st.

3. For pay and allowances and passages by rail during leave see P. and A. Regs.

4. Soldier surveyors will, whenever possible, be provided by the Survey of India with unmarried house accommodation in recess quarters during the first period of extra training but not during the second period. Such accommodation will depend on the quarters available at the office of the survey party, and such arrangements as the officer in charge can conveniently make must be accepted. If necessary, quarters may be hired.

5. During the recess (i.e., hot weather) season of the first period of extra training, soldier surveyors, who wish to visit their homes may, with the sanction of the Surveyor-General, be granted furlough up to two and a half months.

Necessary instructions.

6. (a) About the end of each field season, the Surveyor-General will supply the Chief of the General Staff with a report on all soldier surveyors who have just completed their first period of extra training, showing which men are being retained to undergo a second period of extra training. The number so retained will not, as a rule, exceed 25 per cent. of the whole.

When the retention of certain soldier surveyors has been approved by the Surveyor-General, the officers in charge of survey parties concerned will communicate to the officers commanding the men's military units the names of the men selected and the probable date of commencement of their second period of training so that the remittance of their pay may be discontinued from that date. This date will usually be about May 1st.

(b) Men who are not retained will be sent back to their military units as soon after the end of their second field season as they can be conveniently spared. The Surveyor-General will supply the Chief of the General Staff with two copies of qualification reports on each of these men.

7. (a) The second period of extra training will last about three years and will commence from the date reported by the officer in charge of the survey party other officer commanding the men's military unit.

each of these men.

8. During the second period of extra training soldier surveyors will be paid by the Survey of India. They will cease to draw any pay or allowance from their military units.

9. All soldier surveyors who have completed their second period of extra training and are finally approved by the Surveyor-General will have the option, with the concurrence of the Chief of the General Staff, of being permanently appointed to the Survey of India. They will in this case be required to sign an agreement in the following form:—

"The rules regarding soldier surveyors who are permanently appointed to the Survey of India having been fully explained to me I _____ (name, rank and corps) _____ wish to take my discharge from the Army and to be permanently appointed to the unattached list and to be permanently appointed to the Survey of India, and do hereby undertake to be bound by these and such other rules regarding soldier surveyors who are permanently appointed to the Survey of India, as may from time to time be enforced."

10. Three months before the end of each field season, the Surveyor-General will inform the Chief of the General Staff of men who are about to be permanently appointed to the Survey of India.

12. During the period of extra training soldier surveyors are not liable to be "claimed" for work under the Chief of the General Staff or under any department, except in the case of war. During the second period they are not liable to be "claimed" under any circumstances.

13. During both periods of extra training, soldier surveyors may, with the sanction of the Surveyor-General, be sent back to their military units, if they do not work satisfactorily, the Surveyor-General informing the Chief of the General Staff of the action taken.

APPENDIX XXII.

BANKING OF REGIMENTAL FUNDS.

(Referred to in paragraph 846.)

Subject to the following conditions and procedure, the officer commanding a British or Indian unit or an Auxiliary Force, India corps or an Indian Territorial Force corps may at his discretion, lodge his regimental funds with any private bank or firm of good standing that may be selected by him.

(By a private bank or firm is here meant any banking concern other than a Government Treasury or the Imperial Bank of India and its branches; and the term "bank" is hereinafter used to include also any firm which carries on banking business. Shroffs employed in batteries of Royal Artillery are not included in the term "bank" or "firm")

2. Only regimental, as distinct from public, funds, may be so lodged (*vide* the definitions prefixed to Army Regulations, India, Volume III) and only such banks may be employed as have entered into an agreement, on India Army Form A-301, on 301-A, or on both with the Controller of Military Accounts the Secretary of State for India, or with both as the case may be.

3. Before making a deposit for the first time, or with a different bank from that previously dealt with, the sanction of the Controller of Military Accounts of the Command or District in which the unit is serving must be obtained. At the time of applying for such sanction the officer commanding will state clearly:—

- (a) The name or designation and the location of the bank with which he proposes to deposit his regimental funds.

NOTE.—When it is proposed to deposit funds with a branch of any bank the location of the headquarters of the bank should also be stated.

- (b) Whether the bank has agreed to receive the money and is willing to lodge with Government the necessary security.
 (c) The nature of the funds severally, to be deposited, e.g., Mees, Band, etc.
 (d) The aggregate amount of the deposit, for all the funds together.

The necessary security must, except in cases where it is to be deposited with the Secretary of State, be obtained from the headquarters of the bank concerned before sanction is accorded by the Controller of Military Accounts to the proposed deposit of the regimental funds, see paragraph 6. When the security is to be deposited with the Secretary of State, it must be furnished within 3 months from the date of the Controller of Military Accounts sanction above mentioned.

The banks and firms concerned may at their option furnish security in the shape of (1) sterling securities, provided that the securities so pledged are securities issued or guaranteed by the British or Indian Governments (2) Government of India rupee paper, cash, post trust

or municipal bonds or debentures, or partly (1) and partly (2). Sterling securities shall be lodged with his Majesty's Secretary of State for India; all other forms of security shall be lodged with the Controller of Military Accounts of the Command or District concerned, *vide* rule 6.

4. Subsequent deposits with the same bank may be made without further sanction from the Controller of Military Accounts unless the initial deposits reported to him (see paragraph 3) or the actual total balance last reported (see paragraph 5) would thereby be increased by Rs. 5,000 or more.

5. Immediately after the 30th June and 31st December of each year the commanding officer will obtain from each bank holding funds belonging to his unit a statement of the total balance at his credit, as it stood on such date, and he will without delay forward the statement to the Controller of Military Accounts of the Command or District in which the unit is serving, after verifying the statement with his regimental accounts and attaching his certificate of its correctness.

The balance shown in the statement must include all money held by the bank including both the current (or floating) account and fixed deposits, etc.

C. The lodgment of security will follow the Account District in which the head-quarters of the bank concerned is located, as exemplified by

(see paragraphs 3-5).

half-yearly statements received from commanding officers; such margin being designed to cover ordinary fluctuations connected with regimental deposits which may occur during the ensuing half year.

The Controller of Military Accounts will furnish the Military Accountant General, so as to reach him by the 15th July and 15th January with half-yearly statements showing the amount of regimental funds held by the banks and firms concerned on the 30th June and 31st December, respectively, for which security in sterling has been lodged with the Secretary of State for India. The Military Accountant General will then submit a consolidated statement to the Government of India for transmission to the Secretary of State to enable him to regulate the amount of security required.

The Controller of Military Accounts will also at dates between the half-yearly reports take further security, if necessary, to cover with a margin of 10 per cent., fresh deposits sanctioned under rules 2 and

3. If the security is lodged with the Secretary of State for India, the Controller of Military Accounts will immediately send an intimation to that effect to the Military Accountant General, to enable him to send a report to the Government of India, for transmission to the Secretary of State for India in order that the latter may obtain further security.

On the other hand, if considerable withdrawals occur between the dates of half-yearly reports which are not likely to be made up again during the same half year, the Controller of Military Accounts shall, on application made by the bank, release a proportionate part of the security in his hands if he is satisfied that the withdrawals made justify this course.

8. The security lodged, whether in Government paper, or in cash, or in port trust or municipal bonds or debentures will be duly hypothecated in favour of the Controller of Military Accounts concerned or, in the case of sterling securities, in favour of the Secretary of State for India, at whose sole order and disposal the security will thenceforward remain subject to the provision that in case of failure of the bank the lien of the Controller of Military Accounts or the Secretary of State for India as the case may be upon the security deposited shall extend only to the aggregate amount of regimental funds then actually held by the bank. The Controller of Military Accounts or the Secretary of State for India, as the case may be, will retain the securities in his own custody, and realise and pay to the bank the interest thereon as it becomes due.

All security deposits lodged in Government paper, or in port trust or municipal bonds or debentures shall be taken at their market value at the time of deposit. In the event of fluctuations in the market value of such deposits, the Civil Military Accounts concerned will in all cases review the position annually or if he or the depositor so desires after an interval of six months from the date of deposit or from the date of last review. In either case when a considerable difference in value has taken place, the Civil Military Accounts will call upon the depositor to make up the difference or allow him a refund, as the case may be.

In cases where a bank desires to tender the security, in cash instead of in Government paper, or port trust or municipal bonds or debentures the cash should be deposited in the Imperial Bank of India, or one of its branches and the bank deposit receipt should be forwarded to the Controller of Military Accounts by whom it will be kept in safe custody.

In cases where the bank has tendered the security in sterling with the Secretary of State for India, the latter will report the amount so lodged to the Government of India for notification to the Controller of Military Accounts, of the Command or District in which the headquarters in India of the bank concerned is located.

9. With a view to minimising the risk of the security lodged with the Secretary of State being at any time insufficient to cover the total deposits of regiments in India no refund will be made by the

Secretary of State except on the basis of the half-yearly statements mentioned in paragraph 7 above.

10 If intimation is received by the Government of India that a bank which has deposited sterling securities with the Secretary of State wishes to replace the same wholly or partly by Government of India rupee paper or some other form of security authorised to be held in this country, the Military Accountant General will inform the Controller of Military Accounts concerned. Immediately the security which it is desired to substitute is deposited the latter officer will report to the Military Accountant General to admit of intimation being sent at once by the Government of India to the Secretary of State.

11. The responsibility of the Civil Military Accounts is limited to the duties above indicated. He is not concerned in detailed work connected with regimental funds, such as settling the rates of interest to be allowed on deposits or seeing that the interest agreed upon is duly credited; arranging for transfer of money from "floating account" to "fixed deposit" or vice versa, checking the amounts paid into or withdrawn from accounts or dealing with points in dispute between depositors and banks. Such matters appertain solely to the interior management of the funds and remain to be settled in direct communication between the officer commanding the unit and the bank concerned.

NOTE 1.—It is to be clearly understood that all deposits of regimental funds with a private bank or firm are made and remain at the personal responsibility of the commanding officer. The rules and procedure above stated have been laid down for the convenience and benefit of corps to make it possible for them to earn interest on their

- (i) no extra expense to Government is to be incurred,
- (ii) reasonable remuneration is to be afforded to the troops employed

Payments will be made direct to the Officer Commanding the troops employed who will determine the amounts to be paid to the men, and also will, as in the case of a civil contractor, be required to meet from the payments for labour all extra expenditure incurred in connection with their employment, including compensation for dearness of provisions, and all charges connected with transport, movement, extra clothing, hutting, water supply, conservancy, etc., and repair and maintenance of tools and plant. Unless it be otherwise provided by special rule, no portion of the extra expenses incurred by reason of the employment of troops on these works shall be borne by the military budget.

2. No engineer or working pay shall be issued to any one employed with a unit engaged on railway, public or military works, or proceeding to or from such employment, except as provided for in paragraph 3.

3. In the case of sappers and miners the issue of working pay debitable to the military budget, is admissible while a unit is employed under the Railway Administrations, the Public Works Department or the Military Engineer Services, to:—

- (a) British non-commissioned officers;
- (b) Indian ranks drawing extra duty pay in regimental appointments;
- (c) Men employed upon instructional work, if there is no contract work available for them;

provided they derive no benefit in the way of pay from the contract receipts

Regulations, India, as the case may be, of pensions to those injured, and of family pensions to the heirs of those killed, while in the performance of such work.

Liability for such casualties occurring whilst employed by Government Departments (Railways, M. E. S., or P. W. D.) is accepted by Government. For those occurring whilst employed with a Native State or private employer, such State or private employer is liable to Government. Should cases occur in which it may be desirable to modify the above provisions, they will be specially considered on their merits.

5. Units employed under the Railway Administration, the Public Works Department and the Military Engineer Services can at any time be withdrawn from such employment should conditions of active service arise at any time during the period of their work such as to render their presence elsewhere necessary. Failing the existence of such conditions, there is no limit fixed as to the length of time a unit may be employed on contract work, and the ordinary rules governing the completion of a contract, once taken up, will apply.

6. During the course of any contract that extends beyond a period of six months, military training of the unit or units engaged thereupon will be carried on, sufficient for practical purposes of efficiency. In such cases not more than three quarters of any unit will be employed at any one time upon the actual contract work, although the whole unit will be moved to the site of the contract. The remaining quarter of the unit will be under military training at or near the locality where contract work is going on.

7. When contract work of the above nature is offered to military units by Indian States or private employers, the application, accompanied by the proposed terms of agreement, will be submitted to A.

8. In the case of contracts with Government departments, district commanders are empowered to give sanction to work being undertaken, subject to the following conditions:—

(a) That the total number of men required to perform the work does not exceed 10 per cent. of the total strength of the unit.

(b) That the party is within 24 hours recall of the headquarters of the units.

(c) That the work is in the nature of piece-work, i.e., can be terminated by 48 hours' notice on either side.

9. In no case will the Officer Commanding concerned have the right to refuse such employment sanctioned by a higher authority.

10. A report should be made to the C. G. S. indicating the place and nature of the work, the number of men employed and the period of employment. Applications in connection with all contracts with Government Departments other than those of the nature alluded to in paragraph 8 above, should be submitted to the C. G. S. through the usual channels, for the sanction of H. E. the C-in-C.

11. It should be understood that the rules as now modified apply during normal times only, and that the proposed employment of any mobilized unit should invariably be referred to the C. G. S.

12. When new lines are required to be constructed sepoy, other than those of sappers and miners and pioneer units, shall not be employed in the work of leveling sites or of demolishing old buildings.

U.-1742, when he succeeds to a permanent appointment. Soldiers of the R. E. are eligible for promotion to sergeant in the corps, but the regimental promotion of other soldiers ceases on leaving their corps for departmental or detached employment, and their subsequent promotion is regulated by departmental rules.

The transfer to the U. L. of passed apprentices of the T. C. E. College, Rurki and other engineering colleges will be carried out on their permanent appointment to the M. W. S. or P. W. D. with effect from the date following that on which their final examination in the college ends.

6. On transfer to the U. L., soldiers will continue to be borne supernumerary on the rolls of their original units irrespective of whether their units are serving in India or elsewhere, for so long as the soldier remains on the U. L. or, in the case of departmental ranks, up to the date that a man is promoted to departmental warrant rank, when he will be struck off the rolls of his original unit.

(c) Promotions.

7. A soldier, on completion of the undermentioned periods of qualifying service with uniform good conduct, if below the rank stated and the same or higher rank is not attached to and given with the appointment, may be promoted as follows—

(1) Departmental ranks.

Sergeant with effect from date of transfer to the U. L. and staff-sergeant after three years' departmental service as sergeant.

Promotion to sergeant on transfer to the U. L. does not carry with it a corresponding increase of pay.

N. C. Os. who joined the Corps of Military Staff Clerks on or after the 24th November 1911, will on transfer to any section of the departmental U. L. count all non-departmental service in the Corps towards the 3 years' qualifying service for promotion to the rank of staff-sergeant.

(a) In all cases not mentioned below, sergeant after one year's service in the appointment, and three years' army service.

(b) 1st class soldier mechanics. Corporal on appointment, sergeant after one year's service in the appointment, and staff-sergeant after three years as sergeant.

(d) Bandmen, sergeant after one year's effective service in the band and six years' army service, provided they agree to re-engage when eligible to do so.

Promotion of soldier mechanics to the rank of staff-serjeant will not affect pay, leave pay and pension.

Recommendations for promotion to serjeant, and in the case of departmental ranks staff-serjeants, will be submitted on I. A. F. U.-1743

8. Promotion to sub-conductor or higher rank will generally be by departmental seniority, but in cases of superior merit may be by selection. When recommending a subordinate for promotion the head of the department will satisfy himself that, in addition to eligibility by reason of efficiency, the subordinate is in every respect fitted for advancement in regard to temperament and habits. Promotion to the next higher rank of those serving in departments, not having fixed establishments, will be regulated by the average rate of promotion of the last ten advancements to that rank, and signalers of the Indo-European telegraph department will complete ten years' departmental service before they are eligible for promotion to warrant rank. Application for such promotion will be submitted to the G. of I. for approval and notification. A soldier transferred to the departmental U. L. on or after the 1st January 1912 will not be promoted to warrant rank unless and until he is in possession of a first class certificate of education or the equivalent under the army school regulations. This qualification will not be demanded in the case of a soldier of the M. W. S. or P. W. D., who has obtained a certificate as sub-engineer or overseer from a civil engineering college. Before a soldier is promoted to departmental warrant rank, he shall sign a declaration agreeing to continue to serve until legally discharged—(I. A. F. U.-1746). Former serjeants of the Indian veterinary corps will receive promotion under the R. W., applications being submitted to the district commander.

9. Before a recommendation is submitted for the promotion of a warrant officer of the Unattached List to commissioned rank, the candidate will be seen by a district or brigade commander (head of department in the case of those serving at headquarters of departments) who will examine the warrant officer's eligibility for a commission. The district commander, brigade commander or head of the department concerned will satisfy himself that both the character and military record of the warrant officer are up to the standard required of a King's commissioned officer.

In the case of deferred promotions, similar action will again be taken before such promotions are actually gazetted.

10. Departmental Officers, warrant and N. C. Os may be specially promoted for good service in the field, or for distinguished service of an exceptional nature not in the field. The services rendered should not merely be of very distinguished merit, but should be exceptional and exacting, and denote ability and devotion to duty of a very high order, and such as could only be carried out by an individual who is exceptionally gifted. When so promoted they will be borne as supernumeraries in their new grades until absorbed by promotion in the ordinary course. In both branches of the Indian Medical Department those specially promoted in the warrant grade will retain their new

seniority only up to the top of that grade, promotion to commissioned rank being regulated according to the substantive position prior to the grant of special promotion. Those specially promoted to commissioned rank will retain their new seniority to the top of the commissioned grade. No promotions can be made in the room of those specially promoted.

11 The channel for submission of recommendations for special promotion is as follows:— A-33615

14 A soldier is removed from the rolls of his unit on promotion to departmental warrant rank. The head of the department or officer under whom the soldier is serving will obtain the original attestation and maintain it with the soldier's other documents. The maintenance of the duplicate attestation will be discontinued on the promotion of a soldier to departmental warrant rank. After comparison, where possible, with the original attestation and adjustment of any difference, the duplicate attestation will be destroyed.

15 Appointments to the U. L., and in the case of non-departmental w. o. and all U. L. n. c. o.s. and men, changes in rank, transfers, furloughs, remands, dismissals, discharges, transfers, births and deaths in their families, etc., will be entered up in the soldier's duplicate attestation by the head of the department or officer under whom the soldier is serving. In the case of non-effective departmental officers and w. o. all original documents will be forwarded to the A. G. except those of non-effective departmental officers and w. os. of the late Madras unattached list which will be forwarded to the Madras district commander for final custody.

(e) Service.

17 Departmental service counts from the date of transfer to the U. L. but promotion in a department is generally governed by the actual date of appointment or transfer thereto.

18 Non-departmental warrant officers, and all non-commissioned officers and men of the India Unattached List may be permitted to extend their service, re-engage or continue in the service beyond 21 years, under the conditions prescribed in the King's Regulations. The final approving authority for such extensions, re-engagements and continuance in the service beyond 21 years, will be the head of the department concerned as defined in paragraph 3 of this Appendix. In all cases of such extensions, etc., the Officer-in-charge, Home Record Office concerned, will be duly notified by the customary Part II orders. Departmental officers and w. os. and soldier mechanics, provided they remain efficient, may be permitted to serve on till the age of 55 years on attaining which, retirement is compulsory.

(f) Removals—Retirements—Discharges.

19 Warrant and non-commissioned officers and men of the India Unattached List may be removed and re-appointed to regimental duty in their own corps by the district commander "for failure to qualify under departmental rules for retention in the department to which appointed, for inefficiency or for misconduct." A. 33766
(A. G. XI).

A soldier who is so removed will rejoin the unit of the corps from which he was originally appointed to the India Unattached List. If the unit at the time of the removal is stationed out of India, the soldier will be sent to rejoin it by the first available transport.

Applications for removal, giving full reasons and accompanied by copies of the soldiers departmental character sheets and conduct sheets, will be submitted by the head of the department to the district commander who may order the removal as follows:—

- (a) either in the rank the soldier so removed holds at the time of his removal without loss of seniority, or
- (b) in a lower rank. A soldier removed for misconduct will have seniority in that lower rank from the date of the order of removal. A soldier removed for failure to qualify for retention or for inefficiency, will be removed in the rank held by

him prior to his appointment to the India Unattached List without loss of seniority in that rank.

- (c) If the district commander does not comply with an application for removal on account of failure to qualify for retention he will report the case to Army Headquarters stating his reasons for not ordering the removal.

As it will seldom be expedient to remove warrant officers in that rank they will usually be dealt with under clause (b)

In the cases of warrant officers, the authority for removal with or without loss of rank is section 83 (6) A.A. In the cases of non-commissioned officers, the reduction (if any) in rank must be ordered under section 183 (2) A.A. The removal will be notified in the orders of the sanctioning authority. The warrants of warrant officers will be withdrawn and returned to the Government of India. If suspended pending removal, non-commissioned officers and men should be attached to the nearest British unit until orders for their disposal are received.

- (2) Reduction or remand and reduction under section 180 (2) (f), A.A.

A warrant officer is liable to be reduced by the Government of India to a lower grade of warrant rank or to be remanded by the same authority to regimental duty in the regimental rank held by him immediately previous to his appointment to be a warrant officer with seniority from the date of the order of remand.

20. Warrant and n. c. os. and men of the U. L. on conviction by court martial will be dealt with as follows —

- (i) Warrant officer— if reduced by the court in the list of his rank or to an inferior class of w. o., he may or may not be removed (optional), if reduced to the ranks he must be removed to regimental duty, but he shall not be required to serve in the ranks as a soldier.
- (ii) N. c. os. and men may be removed to regimental duty at the discretion of the district commander.

Applications for removal under this paragraph will be submitted by the head of the department to, and dealt with by, the district commander, exactly as laid down in para. 19.

21. The discipline of U. L. ranks employed in the Indian telegraph department is governed by the rules contained in Chapter IV, Vol. II, Telegraph Manual.

22. A departmental warrant officer having 21 years' qualifying service for pension shall be liable to be discharged. He may, however, be retained for such further specified periods as may be authorized from time to time by the head of his department or other superior authority, but shall not be retained beyond the age of 55 years.

A departmental w. o. is also liable to be discharged at any time by order of competent military authority should his services be no longer required.

23. Application for the retirement to pension, from any cause, of departmental officers and w. o. serving in India, will be submitted on

I. A. F. A-311 to the head of the department concerned for sanction and transmission to the C. M. A. concerned for issue of the pension notification. In the case of departmental officers and W. Os proceeding to the United Kingdom on leave pending retirement, I. A. F. A-312 (Record of Service) will be transmitted to the India Office as soon as they proceed on such leave. Voluntary application submitted while on leave in the U. K. will be addressed to the Under Secretary of State, India Office, at least two months before the expiration of the leave, but when it is desired to compulsorily retire a W. O., under the provisions of para. 22, while on leave in the U. K., the head of the department will submit the necessary papers to the G. of I. for transmission to the Secretary of State. W. Os will be given a retirement certificate (I. A. F. U-1748). The Officer in I. A. S. C. Records performs the functions of head of department in respect of retirements of departmental officers and warrant officers of the I. A. S. C. serving in India, except where such retirement is the result of disciplinary action.

24. A departmental W. O. on being appointed to a civil gazetted post is required to resign his rank and retire from the service.

25. The special pension authorised in the P & A Regs. to soldier-mechanics of the I. O. D. is awarded by the Chelsea Commissioners. These men are returned to regimental duty for discharge as required by the discharge Regulations, and when their discharge has been carried out their discharge documents are sent by the officer commanding the regiment to the head of the department concerned. Applications for the retirement of these men are submitted on I. A. F. A-311. The head of the department concerned will obtain the recommendation of the G. of I. as to the rate of pension to be granted to the men and forward the recommendation together with the men's discharge documents through the officer in charge of records concerned, to the Commissioners of Chelsea Hospital with a view to the pension being awarded. For the purpose of this rule, the D. O. F. and M. or the D. of A. as the case may be shall be considered as the head of the department.

26. Warrant and m. c. os and men of the U. L. may, with the approval of the district commander, resign their U. L. rank and revert to regimental duty. In such cases the man will rejoin his corps in the position he held prior to his transfer to the U. L., and be absorbed in the first vacancy. A P. E. soldier will, however, retain his U. L. rank until he is reverted to regimental duty at the first public opportunity. He will not necessarily return to the particular unit in which he was serving immediately prior to his transfer to the U. L. but will be available for general regimental duty in the Corps of Royal Engineers. Applications from artillery men who wish to resign their U. L. rank in order to accompany a battery or company to England after long service in India, may be specially considered by the district commander.

27. Applications for the discharge of those below the rank of departmental warrant officer will be forwarded by the head of the department or officer under whom the soldier is serving to the district commander in whose district the soldier is serving. The latter will issue an order removing the individual from the U. L. and transferring him to his unit.

in the rank he holds at the time of his removal, authorizing the discharge. The date of discharge will be notified by the unit commander to the district commander. Such men need not actually rejoin their corps for duty pending discharge as their discharge documents will be prepared and all claims settled by the unit commander in communication with the officer under whom they are serving. Where the original units are stationed at the time out of India the soldiers concerned will be transferred to the nearest unit located in India which belongs to the same branch of the service as their former corps.

Men of the U. L. who elect for transfer to the army reserve will be called upon to resign their U. L. rank and revert to regimental duty under the same conditions as men who resign under para. 26.

28. N. C. os. and men who are medically unfit for further service will be removed by order of the district commander from the U. L. and transferred to their corps in the rank they hold at the time of their removal, to be invalided or otherwise disposed of; if recommended for change of air in India they will not be removed from the U. L. but sent to a sanatorium for duty.

28.A. When Part II, Regimental Orders, contain notifications of remand of India Unattached List ranks to regimental duty, a copy thereof will be forwarded without delay by the officer commanding the unit concerned direct to the Secretary Military Department, India Office, London.

(g) Indian ranks.

29 Indian n. c. os. and men of all branches are eligible for employment in civil departments and those who have passed a qualifying course of instruction in grass farming for employment on government grass farms. For civil employment (except the survey department for which there are special rules, see Appx. XVIII), the probationary period will be twelve months. The training period for grass farms is 12 months followed by 6 months' probation. During the first 3 months of absence from his unit, when on training or on probation with a civil department, and during the first six months of absence from his unit on training with the Military Farms Department, a soldier will be borne, unseconded, on the establishment of his unit. On the expiry of the period of 3 months' absence in the case of civil department, and at the end of six months if employed with the Military Farms Department, the

11 Every applicant for appointment to the Army in India Reserve of Officers whether as an officer or as an officer designate, will be required to obtain the assent of his "superior authority" in civil life. In the case of a government servant, the "superior authority" should be the Government of India or a local Government as the case may be, or the departmental authority prescribed in this behalf by the Government of India or the local Government. In the case of an applicant who is not a government servant, the "superior authority" will be the civil employer, if any

The assent of the "superior authority" will be recorded on the form of application before submission.

12 An applicant for a commission in the Army in India Reserve of Officers, not being a member of the Auxiliary Force, India, will submit his application to the headquarters of the district or independent brigade in which his normal residence is located.

Applicants for commissions will state the unit and branch or department of the army in which they prefer to be employed. Every applicant, on submitting his application for the cavalry or infantry branch, should state two or three units in order of preference. These wishes will be recorded and will, as far as the exigencies of the service permit be considered when appointing officers; but the actual employment of officers when called to army service rests with His Excellency the Commander-in-Chief, and officers must be prepared to serve wherever required by the exigencies of the emergency or campaign.

An applicant for registration as an officer designate of the Army in India Reserve of Officers, being a member of the Auxiliary Force, India, will submit his application to his commanding officer, who will forward it with his recommendations to the headquarters of the district or independent brigade in which the unit headquarters is situated.

13. The proportion of officers and other ranks of units of the Auxiliary Force, India, who may become officers designate of the Army in India Reserve of Officers, will be at the discretion of the unit commander subject to the approval of the district or independent brigade commander.

14. All applicants will, when possible, be interviewed by the District or Independent Brigade Commander. When this is impracticable or inconvenient, the interview may be dispensed with by the District or Independent Brigade Commander, who will make such enquires as he considers desirable, or he may depute a military officer to carry out the interview.

In the case of officers who belong, or belonged to the A.I.R.O. as constituted under the Regulation of 1922, this interview is not necessary.

The commander of the district or independent brigade after satisfying himself as to the suitability of the applicant to hold a commission, will arrange for his medical examination (vide paragraph 17), after which the papers will be forwarded through the usual channels to the Military Secretary at Army Headquarters.

Candidates for category II will require to be approved by the Director of Medical Services at Army Headquarters before acceptance.

15. Applications will be made on India Army Form Y-1052 (vide Appendix A), copies of which will be held by all Auxiliary Force units and by headquarters of districts and independent brigades.

16. Every application will be accompanied by the following declaration, made before a magistrate:—

VIII.—Training.

19. All officers and officers designate of the reserve will be required to carry out such training as may be prescribed from time to time. Times and places will be arranged, as far as possible, to suit the convenience of individuals.

An officer who carries out 30 days training in any one year may be exempted by the District or Independent Brigade Commander from undergoing the prescribed training in the following year.

21. Officers designate will normally undergo training for the periods laid down in paragraph 20. It shall, however, be within the power of the District or Independent Brigade Commander to exempt an officer designate of categories, 2, 3 and 6, not more often than every second year, provided that he carries out the training in that year for which he is liable under the Auxiliary Force (India) Act.

With the approval of the competent military authority as defined in the Auxiliary Force (India) Act, training carried out as an officer designate under paragraph 20 may be allowed to count against training prescribed under the Auxiliary Force (India) Act. 24. Arrangements will be made for officers on leave in the United Kingdom to be attached to regular units of the British Army in Great Britain provided they give two months' notice to the Military Secretary, India Office, London. This arrangement cannot be made for officers designate who do not hold permanent commissions in the Auxiliary Force, India.

25. The qualifications for promotion in the Army in India Reserve of Officers are given in Appendix E. of these regulations

Officers and officers designate who on the termination of not less than 30 days' training, made up in two periods if necessary, are reported by the district or independent brigade commander to be fit for promotion, may be exempted from passing the prescribed tests.

Officers and officers designate who are earmarked for war time duties which require knowledge of a technical rather than a military character, may be similarly exempted by the district or independent brigade commander, without undergoing the prescribed training.

All such exemptions will be reported to the Military Secretary at Army Headquarters.

26. Officers of the Army in India Reserve of Officers who may be residing out of India will apply to the Military Secretary, Army Headquarters in India (through the local military headquarters, if any), for instructions as to training facilities. In peace time officers of the Army in India Reserve of Officers, and officers designate when called up for training as such, will wear the uniform and badges authorized for the Army in India Reserve of Officers as laid down in Dress Regulations (India), 1926.

On being called to army service all officers will wear the badges of the unit or service with which serving or, if in extra-regimental employ of the unit on whose rolls they are borne.

XI.—Pay and allowances.

33. When called to army service by Gazette notification, and when called up for training, officers of the reserve will receive pay and allowances admissible to regular officers of the same status and rank in the arm or service to which they are posted, from the date on which they report for such service of training, subject to any rules which may be in force with regard to civilian government servants employed in a military capacity.

As an exception to the above, officers of category II will receive the rates of pay laid down for regular officers of the Indian Medical Service. In addition, those entitled to overseas pay will draw such overseas pay in rupees.

The current rates of pay of the regular army in India are given in Appendix C.

34. Officers designate will receive the emoluments admissible to them as members of the Auxiliary Force, India, for all training carried out under the Auxiliary Force (India) Act, 1920, and under the regulations made under that Act. (See also paragraph 21.)

35. Officers designate undergoing periods of training under these regulations will be paid at the rates of the rank which would have been admissible to them if they had been granted commissions on first being registered for the Army in India Reserve of Officers and had received the promotion to which they would then have been entitled as officers of the reserve.

36. The ordinary lodging allowance rules will not be applied to officers and officers designate during training, except when accommodation in government quarters is available and when they elect to utilise it and abide by the lodging allowance rules; in other words officers and officers designate will ordinarily draw lodging allowance in cash and make their own arrangements for their accommodation.

37. The rates of pay admissible to officers of the Army in India Reserve of Officers during periods of training and service under these

regulations will be subject to revision in conformity with any revision of pay of the regular officers of the Army in India which may be made from time to time

38 Civilian government servants employed under the Government of India, who belong to the Army in India Reserve of Officers will, when called up for training, receive their civil pay in addition to their military pay. Periods of time spent by all government servants undergoing training or when called to army service shall count for civil leave and pension and for increments of civil pay.

39. Military pay and allowances during training will be drawn through the accounts of the unit or formation with which the officer actually does his training

40 In time of peace, every officer and officer designate of the reserve will receive a retaining fee of Rs 200, payable annually in arrears. This allowance includes a sum for the maintenance of the prescribed outfit [see Appendix II (1)] On being called to army service as in paragraph 2, an officer or officer designate will receive a proportion of this retaining fee corresponding to any incomplete portion of a year's service rendered prior to his being called to army service

41 An officer on joining the reserve, or an officer designate on registration in the reserve, will be entitled to an outfit allowance

42 The commander of an Auxiliary Force unit will be entitled to draw a capitation grant of Rs 150, once only, for every officer designate who belongs to his unit. This grant will be paid when the individual in question has completed one year's actual service, and will be expended in the interests of the Auxiliary Force unit at the discretion of the commanding officer.

XII.—Leave.

43. On the conclusion of his mobilized service and prior to the official date of his release from army service as notified in the *Gazette of India* an officer will be entitled to the grant of the following periods of leave:—

- (a) *Privilege leave*.—30 days in respect of each year of mobilized service, or for broken periods one day for every twelve days, up to a maximum of 90 days.

- (b) *Special leave*.—On full pay, where applicable as may be authorised for regular officers.
- (c) *Furlough*.—30 days in respect of each year of mobilized service or, for broken periods one day for every twelve days, up to a maximum of 90 days.

In all cases the basis of calculation will be the period of mobilized service reckoned from the date of assumption of duty on being called to army service

44. The monthly rate of pay admissible during leave under 43 (a) and (b) above will be the same pay as when on duty, i.e., the full

The pay admissible during furlough under 43 (c) above will be the same as that admissible to a regular officer of the same branch and of the same rank as the officer's substantive rank in the Army in India Reserve of Officers.

45. During his period of mobilized service an officer may be granted—

- (a) Leave on the recommendation of a medical board up to a maximum of eight months, such leave to be governed by the same rules as for regular officers.
- (b) Casual leave up to 10 days at a time.
- (c) Any special periods of war leave which may be authorized for regular officers during the course of a campaign.

46. Officers of the reserve will be entitled to any special concessions which may be made to regular officers in respect of free passages, when proceeding on leave in accordance with paragraph 43.

47. Officers of the reserve who, on completion of their mobilized period of army service, are entitled to leave under paragraph 43, may if they desire resume their civil duties, whether in government employment or otherwise, during their leave without prejudice to the receipt of the full emoluments due to them in respect of such leave. Duty so rendered, in the case of government servants, counts for civil leave.

XIII.—Passage rules.

48. Officers, and officers designate of the reserve travelling on duty in India will travel under these regulations and will be entitled to draw travelling allowance at the scales laid down in Chapter II,

to Regular Officers.

49. Officers and officers designate of the reserve when called up for training are entitled to conveyance from and to their place of residence in India or elsewhere, to and from any station selected by them (vide para. 23) within the command in which they reside.

For special reasons, in the interests of the State, including those provided for in paras. 22 and 26, however, conveyance to and from a station in a command other than that in which they reside may be authorised by the District or Independent Brigade Commander.

50. A married officer or officer designate of the reserve undergoing training for a period of not less than 16 days, will be permitted to draw travelling allowance on the temporary duty scale for himself, vide Appendix D, and a first class fare for his wife if she accompanies him subject to the limitation laid down in paragraph 49.

51. An officer of the Army in India Reserve of Officers who is actually performing military service, is entitled to conveyance for himself and his family—

- (a) On being compelled to resign his commission through circumstances beyond his control, to his intended place of residence in India, if recruited in India, or to the country in which recruited [see paragraph 5 (i)].
- (b) On dismissal or removal from the service, or on being permitted to resign the service to avoid dismissal, provided that he is unable to pay his own travelling expenses, to his intended place of residence in India if recruited in India, or to the country in which recruited [see paragraph 5 (i)].

The class of accommodation to be provided for individuals granted conveyance by sea under this rule is decided by Army Headquarters in accordance with the merits of each case. The grant of passage money in lieu of passage is inadmissible.

The conveyance authorized above is not admissible to an officer undergoing training as distinct from service.

Officers granted passages under this paragraph, either for themselves or their families, will travel on warrant, travelling allowances not being admissible.

52. A married officer of the reserve, on being called to army service in time of war or other emergency, will be entitled to the same concessions as may be authorized for regular officers on mobilization, and on the termination thereof in respect of free passages for his wife and family.

XIV.—Pensions and Gratuities.

53. Officers of the Reserve when called to service by *Gazette* notification will be eligible for invalid pensions and concessions at the rates and under the rules laid down in Articles 623, 623-A, and 623-B, Royal Warrant (1922) for officers of the British service holding temporary commissions, and that military service shall include not only service in any future campaign but also the time during which an officer may be called up for training. An officer who has been pronounced permanently unfit for general service owing to a disability attributable to military service, may on relinquishment of his commission on account of such disability be granted retired pay on the

following scale:—

Rank.	Rate for total disablement.		
			£
Captain or subaltern	150 = year.

NOTE I—In the case of members who are civilian Government servants, eligibility for pension shall be determined either.—

- (a) with reference to the actual military rank held at the time of the casualty creating the claim, and the rates and conditions applicable to members of the Army in India Reserve of Officers, or
- (b) with reference to the relative rank assigned to the officer under Chapter 35, Civil Service Regulations, and the rates and conditions applicable to civil officer under that chapter.

NOTE II—In the case of members who are not civilian Government servants, the Government of India may grant compassionate allowances of a suitable amount in lieu of the pension admissible under rule, in cases in which the following conditions are satisfied—

Widows and family pension will be admissible under the rules contained in Articles 635 and 636 of the Royal Warrant (1922) read with Article 646 *ibid*.

54. An officer of the Army in India Reserve of Officers, called to army service in time of war or other emergency, shall on release from army service receive a gratuity computed as follows:—

In respect of each year's army service, one month's pay, broken periods being reckoned at the rate of one day's pay for every twelve days' service. The term pay means the total of all emoluments appertaining to the appointment held, namely, pay of rank, Indian Army Allowance, departmental corps pay, engineer or signal pay, lodging allowance, marriage allowance, command pay, etc., but excludes allowances not appertaining to the appointment held.

Certain articles, however, which are kept in mobilization reserve and the turnover of which cannot be effected by issues in lieu of other ration articles, may, from time to time, be issued on repayment on the special authority of the Q. M. G. in India

3 In cases under Group III, the percentage on stock book rates, etc., to be levied depends on the actual cost to Government of making the supply at the place concerned

4. The following special rules are applicable to the issue of I. A. S. C. articles to the classes mentioned in Group I:—

- (a) The method of obtaining the supplies will ordinarily be through a unit of the army which regularly draws supplies under the existing regulations. Officers and details not belonging to such a unit will apply to the Officer Commanding the station (or nearest military station), who will attach them to a unit in station orders. Issues on repayment will only be made to individuals at the ration stand of a unit, for which purpose individuals will be attached to units. The O. C. unit on receipt of indents from individuals for articles required on repayment will indent for supplies in bulk on the O. C. Supply Depot, on whom dependant, not more than twice a month.

Establishments which are too large to be conveniently attached to an existing unit, e.g. the staff and establishment of a Command or District Headquarters, the establishment of a Controller of Military Accounts, etc., may be formed, at the discretion of the G. O. C., into a ration-drawing unit with an officer in charge who will be responsible (i) for indenting on the I. A. S. C. in bulk for repayment issues required

by the individuals of his unit. (ii) for crediting the total value of such supplies to Government through his establishment pay bill, and (iii) for effecting the necessary recoveries from individuals.

The State will not be liable for any extra expenditure on account of establishments, accommodation, or equipment necessitated by payment issues.

b) The procedure for payment will be as follows:—

- i) The Accounts Department will receive the total value of supplies issued to a unit to meet payment issues, from the pay bill of the unit. The Officer Commanding unit must effect the necessary recoveries from the individuals of, or attached to, his unit.
- ii) In the case of individuals who are attached for the purpose of leaving rations to a ration drawing unit but whose pay is not drawn in the pay accounts of the unit, the Officer Commanding the unit will be responsible for making the necessary recoveries in cash from the individuals, and for submitting the accounts required by him to the Military Accounts Department, how the money recovered has been recovered.

If on the date the Officer Commanding the unit submits the ration return to audit, any individuals have ceased to be attached to the unit for ration purposes and recoveries are due for rations issued in payment, the amounts due will be reported to the Military Accounts Department for necessary action.

- (iii) Each ration drawing unit may have its ration scale where supplies for issue in payment may be delivered, but the cost of transporting such supplies from the supply depot will be charged to the unit, as the stock book rates do not include such incidental charges.
- (iv) Other individuals, cantons, messes and similar bodies must present, at the time of drawing a treasury receipt previously obtained for the full cost of articles drawn.
- (v) Officers commanding supply units are responsible that the Treasury receipts obtained for articles supplied under (iv) above, are attached to their monthly supply accounts.
- (vi) Issues of animal rations on repayment will be shown on ordinary ration return (I. A. F. S-1519).
- (vii) All regular ration-drawing units will keep both British and Indian ration returns for both classes drawing rations from them.
- (viii) Bread (and eventually meat) will be issued on the coupon system, where considered advisable.

Appendix XLII. Books and regulations to be maintained by units.
